

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission 888 First Street, NE, Washington, DC 20426.

Please include the project numbers noted in item b above on any comments or motions filed.

j. Description of Proposal: Transfer of the licenses for these projects to PPLM is being sought in connection with PPLM's purchase of certain generation assets from MPC.

The transfer application was filed within five years of the expiration of the license for Project No. 2188, which is the subject of a pending relicensing application. In Hydroelectric Relicensing Regulations Under the Federal Power Act (54 Fed. Reg. 23,756; FERC Stats. and Regs., Regs. Preamble 1986-1990 30,854 at p. 31,437), the Commission declined to forbid all license transfers during the last five years of an existing license, and instead indicated that it would scrutinize all such transfer requests to determine if the transfer's primary purpose was to give the transferee an advantage in relicensing (*id.* at p. 31,438 n. 318). The transfer would lead to the substitution of the transferee for the transferor as the applicant in the relicensing proceedings for Project No. 2188.

k. Locations of the application: A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE, Room 2A, Washington, DC 20426, or by calling (202) 208-1371. The application may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call (202) 208-2222 for assistance). A copy is also available for inspection and reproduction at the address in item g above.

l. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.
