Environmental Statements; Availability, Etc; Diamond Mountain Resource Area

AGENCY: Bureau of Land Management, DOI.

ACTION: Notice of availability of the proposed plan amendment environmental assessment to the Diamond Mountain resource area resource management plan.

SUMMARY: The Bureau of Land Management (BLM), Vernal Field Office has completed an Environmental Assessment (EA) and issued a Finding of No Significant Impact (FONSI) for the Proposed Pelican Lake Plan Amendment to the Diamond Mountain Resource Area Resource Management Plan (DMRA-RMP). The Proposed Plan

Amendment would modify the DMRA-RMP's present priority management level classifications within the Pelican Lake planning amendment area through reclassification of about 2,078.20 acres of public land from their present Level 4, Open Management classification to level 3, Active Management classification. The 160 acres of public land classified as Level 1, Most Restrictive Management, the 1,794.66 acres of public land classified as Level 2, Careful Management, and the 865.75 acres of public land classified as level 3, Open Management would not be reclassified. Multiple use of the public land within the planning area would continue in a manner that is compatible, to the extent possible, with the objectives of the Ouray National Wildlife Refuge.

DATES: The 30 day protest period for this proposed plan amendment will commence on April 15, 1999. Protests must be received on or before May 15, 1999.

ADDRESSES: Protests must be addressed to the Director (WO-210) Bureau of Land Management, Attn: Brenda Williams, 1849 C Street, NW, Washington, DC 20240 within 30 days after the date of publication of this Notice of Availability.

FOR FURTHER INFORMATION CONTACT: Peter Kempenich, Natural Resource Specialist, Vernal District Field Office, at 170 South 500 East, Vernal, Utah 84078, (435) 781-4432. Copies of the proposed Plan Amendment EA are available for review at the Vernal Field Office.

SUPPLEMENTARY INFORMATION: This action is announced pursuant to Section 202(a) of the Federal Land Policy and Management Act (1976) and 43 CFR Part 1610. This Proposed Amendment is subject to protests by any party who has participated in the planning process. Protest must be specific and contain the following information:

- The name, mailing address, phone number, and interest of the person filing the protest.
- A statement of the issue(s) being protested.
- A statement of the part(s) of the proposed amendment being protested and citing pages, paragraphs, maps et cetera, of the Proposed Plan Amendment.
- A copy of all documents addressing the issue(s) submitted by the protestor during the planning process or a reference to the date when the protestor discussed the issue(s) for the record.

—A concise statement as to why the protestor believes the BLM State Director is incorrect.

Dated: March 30, 1999.

G. William Lamb,

State Director, Utah.

Notice of Realty Action, Direct Sale of Public Land, Pershing County, Nevada

SUMMARY: The following described land has been found suitable for direct sale under Section 203 of the Federal Land

Policy and Management Act of October 21, 1976 (43 U.S.C. 1713). The land is hereby classified for disposal in accordance with Executive Order 6910 and the Act of June 28, 1934, as amended and will be sold at not less than fair market value:

Mount Diablo Meridian, Nevada

T. 32 N., R. 34 E., Sec. 5, S $\frac{1}{2}$ SE $\frac{1}{4}$ SW $\frac{1}{4}$, SW $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$;
Containing 30.00 acres more or less.

The lands are not required for federal purposes. Disposal is consistent with the Bureau's planning for this area and would be in the public's interest. The land is being offered by direct sale to Howard E. Harris and Terry A. Harris, DBA Murt-Higgins Mine Management Partnership. The mineral estate is vested in a third party and therefore can not be offered in this sale.

The land will not be offered for sale until at least 60 days after publication of this notice in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Ken Detweiler, Realty Specialist, Bureau of Land Management, 5100 E. Winnemucca Blvd., Winnemucca, NV 89445 (775) 623-1500.

SUPPLEMENTAL INFORMATION: The public lands are being offered to Howard and Terry Harris, DBA Murt-Higgins Mine Management Partnership, since they have occupied and developed the site. The Harrises developed the site under the auspices of the general mining law, however, that was determined infeasible since the mineral estate is held by a private third party. The proposed sale would allow the Harrises to keep their property and material on the site. Some of the material on site consists of precious metals refinery slags and powders that contain hazardous substances. Section 120(h) of the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) requires a notice when hazardous substances have been stored on the property. The following notice describes the material stored on the site in compliance with the CERCLA: Approximately 520 tons, of slag and powder from precious metal refining, have been stored on the site since 1989. Some of the slag and powder show a toxicity characteristic for the metals chromium, selenium, and lead.

Since the property has been developed, the patent would contain a solid waste/hazardous substance(s) statement indemnifying the United States. The above described land is hereby segregated from appropriation under the public land laws, including the mining laws, but not from sale under the above cited statutes, for 270

days from the date of publication of this notice in the **Federal Register**, or until title transfer is completed or the segregation is terminated by publication in the **Federal Register**, whichever occurs first.

A PATENT, WHEN ISSUED, WILL CONTAIN THE FOLLOWING RESERVATION TO THE UNITED STATES;

A right-of-way thereon for ditches or canals constructed by the authority of the United States pursuant to the Act of August 30, 1890 (43 U.S.C. 945).

AND WILL BE SUBJECT TO:

1. Those rights for communication line purposes which have been granted to Bell Telephone Company of Nevada by Right-of-way N-12660, under the Act of March 4, 1911 (43 U.S.C. 961).

2. An easement for a power transmission line granted to Sierra Pacific Power Company from Southern Pacific Land Company by Deed No. 4151-F, recorded in Pershing County, Nevada, Book #14 page 71.

For a period of 45 days from the date of publication of this notice in the **Federal Register**, interested parties may submit comments to the Field Manager, Winnemucca Field Office, Bureau of Land Management, 5100 E. Winnemucca Blvd., Winnemucca, NV 89445. In the absence of timely objections, this proposal shall become the final determination of the Department of the Interior.

Dated: April 7, 1999.

Les W. Boni,

Acting Winnemucca Field Manager.

Notice of Special Recreation Restrictions, Missoula, MT

AGENCY: Department of Interior, Bureau of Land Management.

ACTION: Notice of special recreation restrictions and rules addressing camping, motorized vehicle use, public safety, and resource protection on public lands.

SUMMARY: This notice places restrictions on recreation use on public lands located within 1/4 mile on either side of the Blackfoot River extending from Johnsrud Park upstream for approximately 10 miles. Actions are implemented under the authority of 43 CFR 8364.1 and 8372.0-7.

SUPPLEMENTARY INFORMATION: The restricted public lands are part of the Blackfoot River Recreation Corridor which was established in the 1970s. The Blackfoot River Recreation Corridor is a multi-cooperative partnership consisting of private landowners, the Montana Fish, Wildlife and Parks, and the Bureau of Land Management. This partnership was established to provide protection of the natural resources, private property and to provide public safety along 26 miles of free flowing Blackfoot River.

In 1998, the Bureau of Land Management began acquiring land within the corridor. When this acquisition is completed, the Bureau of Land Management will manage approximately 12,000 acres of land upstream from Johnsrud Park. The Bureau of Land Management has started site specific planning for this area. Plans should be completed within two years. The objective of these emergency restrictions is to have regulations in place during the interim planning phase. The Bureau of Land Management stated in its June 1997 Lower Blackfoot River Assembled Land Exchange Environmental Assessment (MT-074-07-06) that "recreation along the Blackfoot River would continue to be managed under the existing Blackfoot River Recreation Corridor Landowner's Agreement." Implementing the following regulations will establish consistency with the existing Montana Fish, Wildlife and Parks Blackfoot River Recreation Corridor rules. To reduce damage to natural and cultural resources and to provide for public safety, the Bureau of Land Management under 43 CFR 8364.1 prohibits the following on the above described public lands:

1. Camping outside of designated sites or areas.
 2. Lighting or maintaining a fire except in designated areas or established government fire rings.
 3. Operating a motor vehicle off of a designated trail, road, or route.
 4. Collecting firewood for other than on site use.
 5. Discharging a firearm or projectile except when and where specifically allowed.
 6. Lighting a firework.
 7. Violating a posted regulation pertaining to the protection of natural resources or public safety.
 8. Occupying or camping at an area longer than seven days during any 30-day period.
- Exemptions from these emergency regulations may be authorized by the Bureau of Land Management.
