SUPPLEMENTARY INFORMATION:

History

On February 1, 1999, a proposal to amend part 71 of the Federal Aviation Regulations (14 CFR part 71) to revise the Class E airspace at Gambell, AK, was published in the **Federal Register** (64 FR 4799). The proposal was necessary due to the establishment of GPS instrument approaches to RWY 16 and RWY 34.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No public comments to the proposal were received, thus the rule is adopted as written.

The area will be depicted on aeronautical charts for pilot reference. The coordinates for this airspace docket are based on North American Datum 83. The Class E airspace areas designated as 700/1200 foot transition areas are published in paragraph 6005 of FAA Order 7400.9F, *Airspace Designations and Reporting Points*, dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR 71.1 (63 FR 50139; September 21, 1998). The Class E airspace designations listed in this

document will be revised and published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 revises the Class E airspace at Gambell, AK, due to the establishment of GPS instrument approaches to RWY 16 and RWY 34. The intended effect of this action is to provide adequate controlled airspace for IFR operations at Gambell, AK.

The FAA has determined that this action only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
