

**SUMMARY:** The MMS periodically issues letters and notices to lessees and operators of oil and gas or sulphur leases in the Outer Continental Shelf (OCS), commonly referred to as LTLs and NTLs. This **Federal Register** notice informs you that we are in the process of reviewing all of the regional LTLs and officially rescinding certain ones. We are also rescinding one NTL.

**EFFECTIVE DATE:** May 11, 1999.

**SUPPLEMENTARY INFORMATION:** The MMS is responsible for oil and gas or sulphur operations in the OCS to ensure operational safety and protection of the environment. In addition to our regulations, we issue NTLs to provide guidance and to further clarify, interpret, or describe regulatory requirements on a national or regional basis. In the past, our regional offices have also issued LTLs for this purpose or to communicate information to OCS lessees and operators.

Last year we reviewed all of the active NTLs to determine if they were still viable. As a result, we rescinded a number of NTLs in a **Federal Register** notice published on November 10, 1998 (63 FR 63071). We updated and reissued most of the remaining NTLs to reflect

current technologies and to correct regulatory citations.

We are subjecting the regional LTLs to the same process. Our initial review has identified numerous LTLs that we can immediately rescind. Throughout the year, we will update the remaining LTLs that need to remain active. However, when we reissue them, they will be converted to NTLs. Once we complete this process, all LTLs will be eliminated. We will provide guidance and supplementary information through the use of NTLs only. This should provide a more uniform, consistent approach for the benefit of the users in keeping track of our guidance documents and informational issuances.

Effective with the publication of this notice, we are officially rescinding one NTL and a number of LTLs that are no longer current, have served their purpose, or because recently revised regulations and policies have eliminated the need for them. All other NTLs and LTLs that are currently in effect will remain in force until superseded or rescinded.

For the Gulf of Mexico OCS Region the following are rescinded or were recently superseded:

NTL 94-02, 2/24/94, Air Emissions Reporting Requirements
