SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0174.

Title: Section 73.1212, Sponsorship Identification, List Retention, and Related Requirements.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households; Business or other for-profit entities.

Number of Respondents: 13,956.

Estimate Time Per Response: 6 mins. (40 Broadcasts/year); 5 secs. (2 Political ads/year).

Frequency of Response:

Recordkeeping; Third party disclosure.

Total Annual Burden: 55,862 hours.

Total Annual Costs: None.

Needs and Uses: Section 73.1212 requires a broadcast station to identify the sponsor(s) of any matter for which consideration is provided. For matters advertising commercial products or services, generally the mention of the name of the product or service constitutes sponsorship identification. In addition, when an entity rather than an individual sponsors the broadcast of matters that are of a political or controversial nature, the licensee is required to retain a list of the executive officers, or board of directors, or

executive committee, etc., of the organization paying for such matters. Sponsorship announcements are waived with respect to the broadcast of "want ads" sponsored by an individual, but the licensee shall maintain a list showing the name, address, and telephone number of each such advertiser. These lists shall be made available for public inspection. The data are used by the public so that they may know by whom they are being persuaded.

Federal Communications Commission.

Proposed Projects

1. National Program of Cancer Registries—Cancer Surveillance System—NEW-National Center for Chronic Disease Prevention and Health Promotion (NCCDHP). The American Cancer Society estimates that 8.2 million Americans have a history of cancer and that in 1999, about 1.2 million new cases will be diagnosed. At the national level, cancer incidence data are available for only 14% of the population of the United States. While this is appropriate for analyses of major cancers in large population subgroups, it is not always adequate for minority populations and rare cancer analyses. Further, to plan and evaluate state and national cancer control and prevention efforts, national data are needed. Therefore, the Centers for Disease Control and Prevention, National Center for Chronic Disease Prevention and Control, Division of Cancer Prevention and Control, proposes to aggregate existing cancer incidence data from states funded by the National Program of Cancer Registries into a national surveillance system.

These data are already collected and aggregated at the state level. Thus the additional burden on the states would be small. Program implementation would require funded states to report data to the CDC on an annual basis twelve months after the close of a diagnosis year and again at twenty-four months to obtain more complete incidence data and vital status from mortality data. The estimated total cost to respondents is \$885,000 per year.
