RIN 1115-AF49

Application for Refugee Status; Acceptable Sponsorship Agreement and Guaranty of Transportation

AGENCY: Immigration and Naturalization Service, Justice.

ACTION: Interim rule with request for comments.

SUMMARY: Section 207 of the Immigration and Nationality Act (Act) authorizes the Attorney General to admit refugees to the United States under certain conditions, including those provided for by regulation. The Immigration and Naturalization Service (Service) regulations require that sponsorship agreements be secured before an applicant is granted admission as a refugee at a U.S. port-of-entry (POE). The determination of whether or not someone is classified as a refugee is described in the Act as a separate decision from whether a refugee may be admitted to the United States in refugee status. This rule amends the Service regulations by removing language that erroneously implies that the Service requires a sponsorship agreement and guaranty of transportation prior to determining whether an applicant is a refugee. This rule is necessary to clarify issues that may appear ambiguous in the

existing regulation, and provides more advantageous treatment for the limited number of applicants for refugee status who have their Service interviews before sponsorship agreements have been secured.

DATES: Effective date: This interim rule is effective May 21, 1999.

Comment date: Written comments must be submitted on or before July 20, 1999.

ADDRESSES: Please submit written comments in triplicate to the Director, Policy Directives and Instructions Branch, Immigration and Naturalization Service, 425 I Street, NW, Room 5307, Washington, DC 20536. To ensure proper handling, please reference INS number 1999-99 on your correspondence. Comments are available for public inspection at the above address by calling (202) 514-3048 to arrange for an appointment.

FOR FURTHER INFORMATION CONTACT: Kathleen Thompson, Office of International Affairs, Immigration and Naturalization Service, 425 I Street, NW, Washington, DC 20536, Telephone (202) 305-2662.

SUPPLEMENTARY INFORMATION: Section 207 of the Act authorizes the Attorney General to admit refugees to the United States under certain conditions. By regulation, sponsorship is required before a refugee can be admitted to the United States. Sponsorship ensures refugees who are admitted to the United States transportation, housing, and assistance in this country. Sponsorship is a requirement separate and apart from the determination that an applicant is classified as a refugee. The current regulations at 8 CFR 207.2(d), states that: "[t]he application for refugee status will not be approved until the Service receives an acceptable sponsorship agreement and guaranty of transportation in [sic] behalf of the applicant."

This sentence may inappropriately imply that there is a requirement to

have secured sponsorship in advance of a determination to be classified as a refugee, which is not the case. The Service has never required the sponsorship assurance before determining whether an applicant meets the definition of refugee under section 101(a)(42) of the Act.

All refugees seeking admission to the United States must satisfy the statutory and regulatory requirements before the Service can admit them to the United States. For example, a refugee must have a sponsor at the time he or she appears at a U.S. POE with an approved Form I-590, Registration for Classification as Refugee, in order to be admitted as a refugee. If the required sponsorship has not been secured or the required medical screening has not been completed, and the refugee arrives at a U.S. POE, the immigration inspector cannot admit the refugee.

Good Cause Exception

This interim rule is effective upon date of publication in the **Federal Register**, although the Service invites post-promulgation comments within a 60-day comment period and will address any such comments in a final rule. For the following reasons, the Service finds that good cause exists under 5 U.S.C. 553(b)(B) and (d)(3) for implementing this rule as an interim rule without the prior notice and comment period ordinarily required under this provision. This rule simply clarifies issues that may appear ambiguous in the existing regulation, and provides more advantageous treatment for the limited number of applicants for refugee status who have their Service interviews before sponsorship agreements have been secured. Early implementation will be advantageous to the intended beneficiaries of this rule. Therefore, it is unnecessary and contrary to the public

interest to delay the implementation of this rule until after a notice and comment period.

Therefore, in accordance with Executive Order 12612, it is determined that this rule does not

have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Airworthiness Directives; Industrie Aeronautiche e Meccaniche Model Piaggio P-180 Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Final rule.

SUMMARY: This amendment adopts a new airworthiness directive (AD) that applies to all Industrie Aeronautiche e Meccaniche (I.A.M.) Model Piaggio P-180 airplanes. This AD requires inspecting both (left and right wing configurations) environmental control system bleed tubes for damage, leakage, and a correct gap between the tube and wing lower panel crossing area, inspecting the wiring and surrounding structures for damage, and correcting any discrepancies found. This AD is the result of mandatory continuing airworthiness information (MCAI) issued by the airworthiness authority for

Italy. The actions specified by this AD are intended to prevent thermal expansion from causing leakage of an environmental control system bleed tube because of improper installation, which could result in deterioration of the electrical wiring and the surrounding structure.

DATES: Effective July 5, 1999.

The incorporation by reference of certain publications listed in the regulations is approved by the Director of the Federal Register as of July 5, 1999.

ADDRESSES: Service information that applies to this AD may be obtained from I.A.M. Rinaldo Piaggio S.p.A., Via Cibrario, 4 16154 Genoa, Italy. SUPPLEMENTARY INFORMATION:

Events Leading to the Issuance of This AD

A proposal to amend part 39 of the Federal Aviation Regulations (14 CFR part 39) to include an AD that would apply to all I.A.M. Model Piaggio P-180 airplanes was published in the **Federal Register** as a notice of proposed rulemaking (NPRM) on February 18, 1999 (64 FR 8020). The NPRM proposed to require inspecting both (left and right wing configurations) environmental control system bleed tubes for damage (dents), leakage, and a correct gap between the tube and wing lower panel crossing area. If any environmental control system bleed tube is found damaged beyond certain limits or an incorrect gap between the tube and wing lower panel crossing area is found, the NPRM proposed to require replacing the bleed tube and rotating the bleed tube to match the necessary gap, as applicable. The NPRM also proposed to require inspecting the wiring and surrounding structures for damage if any leakage is found, and repairing any damaged wiring or surrounding structures.

Accomplishment of the proposed action as specified in the NPRM would be required in accordance with Piaggio Service Bulletin (Mandatory) No.: SB-
