

4 and 5. This is not included in the CTS or ITS 3.3.9.

#### *Environmental Impacts of the Proposed Action*

The Commission has completed its evaluation of the proposed conversion of the CTS to the ITS for Callaway Plant, Unit 1, including the beyond scope issues discussed above. Changes which are administrative in nature have been found to have no effect on the technical content of the TS. The increased clarity and understanding these changes bring to the TS are expected to improve the operators' control of Callaway Plant, Unit 1 in normal and accident conditions.

Relocation of requirements from the CTS to other licensee-controlled documents does not change the requirements themselves. Future changes to these requirements may then be made by the licensee under 10 CFR 50.59 and other NRC-approved control mechanisms which will ensure continued maintenance of adequate requirements. All such relocations have been found consistent with the guidelines of NUREG-1431 and the Commission's Final Policy Statement.

Changes involving more restrictive requirements have been found to enhance station safety.

Changes involving less restrictive requirements have been reviewed individually. When requirements have been shown to provide little or no safety benefit, or to place an unnecessary burden on the licensee, their removal from the TS was justified. In most cases, relaxations previously granted to individual plants on a plant-specific basis were the result of a generic action, or of agreements reached during discussions with the OG, and found to be acceptable for Callaway Plant, Unit 1. Generic relaxations contained in NUREG-1431 have been reviewed by the NRC staff and found to be acceptable.

In summary, the proposed revisions to the TS were found to provide control of station operations such that reasonable assurance will be provided that the health and safety of the public will be adequately protected.

The proposed action will not increase the probability or consequences of accidents, will not change the quantity or types of any effluent that may be released offsite, and will not significantly increase the occupational or public radiation exposure. Also, these changes do not increase the licensed power and allowable effluents for the station. The changes will not create any new or unreviewed environmental impacts that were not considered in the

Final Environmental Statement related to the operation of Callaway Plant, Unit 1, NUREG-0813, dated January 1982. Therefore, there are no significant radiological impacts associated with the proposed action.

With regard to potential non-radiological impacts, the proposed action only involves features located entirely within the restricted area for the station defined in 10 CFR Part 20 and does not involve any historic sites. The proposed action does not affect non-radiological station effluents and has no other environmental impact. It does not increase any discharge limit for the station. Therefore, there are no significant non-radiological environmental impacts associated with the proposed action.

Accordingly, the Commission concludes that there are no significant environmental impacts associated with the proposed action.

#### *Alternatives to the Proposed Action*

As an alternative to the proposed action, the staff considered denial of the proposed action (i.e., the "no-action" alternative). Denial of the licensee's application would result in no change in current environment impacts. The environmental impacts of the proposed action and the alternative action are similar.

#### *Alternative Use of Resources*

This action does not involve the use of any resources not previously considered in the Final Environmental Statement for the Callaway Plant, Unit 1 dated January 1982.

#### *Agencies and Persons Consulted*

In accordance with its stated policy, on May 19, 1999, the staff consulted with the Missouri State official, regarding the environmental impact of the proposed action. The State official had no comments to offer.

#### **Finding of No Significant Impact**

Based upon the environmental assessment, the Commission concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the Commission has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's application dated May 15, 1997, as supplemented by (1) the letters in 1998 dated June 26, August 4, August 27, September 24, October 21 (two letters), November 23, November 25, December 11, and December 22, and (2) the letters in 1999 dated February 5, March 9,

April 7, April 21 and April 30 which are available for public inspection at the Commission's Public Document Room, The Gelman Building, 2120 L Street, NW., Washington, DC, and at the local public document room located at the University of Missouri-Columbia, Elmer Ellis Library, Columbia Missouri, 65201-5149.

## RAILROAD RETIREMENT BOARD

### Proposed Collection; Comment Request

**SUMMARY:** In accordance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

*Comments are invited on:* (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden released to the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

*Title and Purpose of information collection:*

Medical Reports: OMB 3220-0038.

Under sections 2(a)(1)(iv), 2(a)(2) and 2(a)(3) of the Railroad Retirement Act (RRA), annuities are payable to qualified railroad employees whose physical or mental condition is such they are unable to (1) work in their regular occupation (occupational disability); or (2) work at all (permanent total disability). The requirements for establishment of disability and proof of continuance of disability are prescribed in 20 CFR 220.

Under sections 2(c) and 2(d) of the RRA, annuities are also payable to qualified spouses, widow(ers) who have in their care a qualified child who is under a disability which began before age 22; widow(ers) age 50-59 who are under a disability; and remarried widows and surviving divorced wives who would also be entitled under

section 202(e) and 202(f) of the Social Security Act. For entitlement under section 2(c), 2(d)(i), and 2(d)(iii) of the RRA, an individual is disabled if he/she is unable to engage in any regular employment. For entitlement under section 2(d)(v) of the RRA, the individual must have an impairment which is so severe that, in accordance with the regulations of the Social Security Administration, any gainful activity would be precluded. The Railroad Retirement Board (RRB) also determines entitlement to a period of disability or early Medicare entitlement for qualified claimants.

To enable the RRB to determine the eligibility of an applicant or annuitant for disability benefits under the RRA, the RRB requests supportive medical evidence from railroad employers, personal physicians, private hospitals and state agencies. The RRB currently utilizes Forms G-3EMP, G-250, G-250a, G-260, GL-12, RL-11b and RL-11d to obtain the necessary medical evidence. Completion is voluntary. One response is requested to each respondent

### ESTIMATE OF RESPONDENT BURDEN

Form No.	Annual re-sponses	Time (min)	Burden (hrs.)
G-3EMP ...	600	10	100
G-250 .....	12,000	37	7,4000
G-250a .....	12,000	20	4,000
G-260 .....	100	25	42
RL-11b .....	5,000	10	833
RL-11d .....	250	10	42
Total ...	29,950	.....	12,417

The RRB proposes to delete Form GL-12 from the collection as it is no longer required. Minor non-burden impacting editorial changes are being proposed to the remaining forms in the collection.

### ADDITIONAL INFORMATION OR COMMENTS:

To request more information or to obtain a copy of the information collection justification, forms, and/or supporting material, please call the RRB Clearance Officer at (312) 751-3363. Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 N. Rush Street, Chicago, Illinois 60611-2092. Written comments should be received within 60 days of this notice.
