

competing application or motion to intervene must also be served upon each representative of the Applicant specified in the particular application.

Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

Linwood A. Watson, Jr.,

Acting Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Notice of Application Accepted for Filing and Soliciting Motions To Intervene and Protests, and Comments

May 26, 1999.

Take notice that the following hydroelectric application has been filed with the Commission and is available for public inspection:

- a. *Type of Application:* Preliminary Permit.
- b. *Project No.:* P-11657-000.
- c. *Date filed:* January 11, 1999.
- d. *Applicant:* Universal Electric Power Corporation.
- e. *Name of Project:* Loyalhanna Dam.
- f. *Location:* At the existing U.S. Corps of Engineers' Loyalhanna Dam located on Loyalhanna Creek, near the Town of Saltsburg, Westmoreland County, Pennsylvania. The proposal would utilized federal lands.
- g. *Filed Pursuant to:* Federal Power Act, 16 U.S.C. §§ 791 (a)-825(r).
- h. *Application Contact:* Mr. Ronald S. Feltenberger, Universal Electric Power Corp., 1145 Highbrook Street, Akron, Ohio 44301, (330) 535-7115.
- i. *FERC Contact:* William H. Diehl, William.Diehl@FERC.fed.us, (202) 219-2813.
- j. *Deadline Date:* 60 days from the issuance date of this notice.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, N.E., Washington D.C. 20426.

The Commission's Rules of Practice and Procedure require all intervenors filing documents with the Commission to serve a copy of that document on each person whose name appears on the

official service list for the project. Further, if an intervenor files comments or documents with the Commission relating to the merits of an issue that may affect the responsibilities of a particular resource agency, they must also serve a copy of the document on that resource agency.

k. The proposed project would utilize the existing U.S. Army Corps of Engineers' Loyalhanna Dam and would consist of: (1) Two new 50-foot-long, 36-inch-diameter steel penstocks; (2) a new 50-foot-long, 40-foot-wide, 25-foot-high powerhouse containing two 300-kW generating units for a total installed capacity of 600-kW; (3) new exhaust aprons; (4) a new 500-foot-long, 14.7-KW; transmission line; and (5) appurtenant facilities.

Applicant estimates that the average annual generation would be 4 GWh and that the cost of the studies to be performed under the terms of the permit would be \$500,000. Project energy would be sold to utility companies, corporations, municipalities, aggregators, or similar entities.

l. A copy of the application is available for inspection and reproduction at the Commission's Public Reference Room, located at 888 First Street, N.E., Washington, D.C. 20426, or by calling (202) 208-1371. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call (202) 208-2222 for assistance). A copy is also available for inspection and reproduction at the address in item h above.

Preliminary Permit—Anyone desiring to file a competing application for preliminary permit for a proposed project must submit the competing application itself, or a notice of intent to file such an application, to the Commission on or before the specified comment date for the particular application (see 18 CFR 4.36). Submission of a timely notice of intent allows an interested person to file the competing preliminary permit application no later than 30 days after the specified comment date for the particular application. A competing preliminary permit application must conform with 18 CFR 4.32 (a) and (b)(1).

Preliminary Permit—Any qualified development applicant desiring to file a competing development application must submit to the Commission, on or before a specified comment date for the particular application, either a competing development application or a notice of intent to file such an application (see 18 CFR 4.36). Submission of a timely notice of intent to file a development application allows an interested person to file the

competing application no later than 120 days after the specified comment date for the particular application. A competing license application must conform with 18 CFR 4.32(a), (b), and (c).

Notice of intent—A notice of intent must specify the exact name, business address, and telephone number of the prospective applicant, and must include an unequivocal statement of intent to submit, if such an application may be filed, either a preliminary permit application or a development application (specify which type of application). A notice of intent must be served on the applicant(s) named in this public notice.

Proposed scope of Studies under Permit—A preliminary permit, if issued, does not authorize construction. The term of the proposed preliminary permit would be 36 months. The work proposed under the preliminary permit would include economic analysis, preparation of preliminary engineering plans, and a study of environmental impacts. Based on the results of these studies, the Applicant would decide whether to proceed with the preparation of a development application to construct and operate the project.

Comments, Protests, or Motions to Intervene—Anyone may submit comments, a protest, or a motion to intervene in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211 and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, protests, or motions to intervene must be received on or before the specified comment date for the particular application.

Filing and Service of Responsive Documents—Any filings must bear in all capital letters the title "COMMENTS", "NOTICE OF INTENT TO FILE COMPETING APPLICATION", "COMPETING APPLICATION", "PROTEST", "MOTION TO INTERVENE", as applicable, and the Project Number of the particular application to which the filing refers. Any of the above-named documents must be filed by providing the original and the number of copies provided by the Commission's regulations to: The Secretary, and an additional copy must be sent to Director, Division of Project Review, at the above-mentioned address. A copy of any notice of intent, competing application or motion to intervene must also be served upon each

representative of the Applicant specified in the particular application.

Agency Comments—Federal, state, and local agencies are invited to file comments on the described application. A copy of the application may be obtained by agencies directly from the Applicant. If an agency does not file comments within the time specified for filing comments, it will be presumed to have no comments. One copy of an agency's comments must also be sent to the Applicant's representatives.

BILLING CODE 6717-01-M

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6353-5]

Agency Information Collection Activities: Submission for OMB Review; Comment Request; Children's Total Exposure to Persistent Pesticides and Other Persistent Organic Pollutants (CTEPP)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval: Children's Total Exposure to Persistent Pesticides and Other Persistent Organic Pollutants, EPA ICR Number 1892.01. The ICR describes the nature of the information collection and its expected burden and cost; where appropriate, it includes the actual data collection instrument.

DATES: Comments must be submitted on or before July 2, 1999.

FOR FURTHER INFORMATION CONTACT: Sandy Farmer at EPA by phone at (202) 260-2740, by email at farmer.sandy@epamail.epa.gov, or download a copy of the ICR off the Internet at <http://www.epa.gov/icr> and refer to EPA ICR No. 1892.01.

SUPPLEMENTARY INFORMATION:

Title: Children's Total Exposure to Persistent Pesticides and Other Persistent Organic Pollutants, EPA ICR Number 1892.01. This is a new collection.

Abstract: The National Exposure Research Laboratory of the Office of Research and Development (ORD) at EPA plans to conduct a research study

investigating preschool children's exposure to persistent pesticides and other persistent organic pollutants. This study is necessary to respond to the Food Quality Protection Act (FQPA) of 1996 which requires that EPA evaluate non-occupational sources (e.g., food, water, air, dust, soil, etc.) of exposures to pesticides when constructing risk assessments, consider the cumulative health impact of pesticides, and provide particular attention to young children such that "there is reasonable certainty that no harm will result to infants and children from aggregate exposure to pesticide chemical residue."

Study respondents will be children between the ages of 2-5 and their adult caregivers in approximately 260 households. Participation will be entirely voluntary. The participants' exposures will be estimated by collection and analysis of samples of food, beverages, air, house dust, soil, hand wipes, and urine in conjunction with information from questionnaires including activity diaries. Young children, especially those of the preschool ages, are believed to have greater exposures than do older children or adults to persistent organic pesticides, including some compounds that may have endocrine-disrupting effects or developmental toxicity. These greater exposures may result from what children eat and drink, where they spend their time, and what they do there. The impact of the exposures may be greater on young children because of their smaller body masses, immature body systems, and rapid physical development.

The data will be used by scientists within ORD and external to the Agency to refine and validate exposure models which, in turn, will be used to reduce the uncertainty in the health risk estimates of young children to these toxic pollutants. The information will also be used by the EPA Office of Children's Health Protection and the EPA Office of Prevention, Pesticides, and Toxic Substances in their consideration of children's risk assessment and risk management options. The information will appear in the form of final EPA reports, journal articles, and will also be made publicly available in an electronic data base.

The total cost of the study is estimated to be \$4.5M over a three year period. Approximately 308 respondents will be included. An incentive payment will be offered to defray the burden to the respondent.

Responses to the collection of information are voluntary. An agency may not conduct or sponsor, and a person is not required to respond to, a

collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 2/1/1999 (64 FR 4868); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 6.2 hours per respondent. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities:

Parents/households, day care or pre-school operators.

Estimated Number of Respondents: 308.

Frequency of Response: On occasion.

Estimated Total Annual Hour Burden: 670 hours.

Estimated Total Annualized Cost Burden (non-labor costs only): \$0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1892.01 in any correspondence.

Ms. Sandy Farmer, U.S. Environmental Protection Agency, Office of Policy, Regulatory Information Division (2137), 401 M Street, SW, Washington, DC 20460;
and

Office of Information and Regulatory Affairs, Office of Management and Budget, Attention: Desk Officer for EPA, 725 17th Street, NW, Washington, DC 20503.
