

determined that the supplies of these other varietal types would be less than or close to their computed trade demands; thus, the Committee determined that volume regulation was not warranted.

There are some reporting, recordkeeping and other compliance requirements under the order. The reporting and recordkeeping burdens are necessary for compliance purposes and for developing statistical data for maintenance of the program. The requirements are the same as those applied last season. Thus, this action imposes no additional reporting or recordkeeping burdens on either small or large handlers. The forms require information which is readily available from handler records and which can be provided without data processing equipment or trained statistical staff. The information and recordkeeping requirements have been previously approved by the Office of Management and Budget (OMB) under OMB Control No. 0581-0178. As with other, similar marketing order programs, reports and forms are periodically studied to reduce or eliminate duplicate information collection burdens by industry and public sector agencies.

In addition, the Department has not identified any relevant Federal rules that duplicate, overlap, or conflict with this rule. Finally, interested persons are invited to submit information on the regulatory and informational impacts of this action on small businesses.

Further, Committee and subcommittee meetings are widely publicized in advance and are held in a location central to the production area. The meetings are open to all industry members, including small business entities, and other interested persons who are encouraged to participate in the deliberations and voice their opinions on topics under discussion. Thus, Committee recommendations can be considered to represent the interests of small business entities in the industry.

An interim final rule concerning this action was published in the **Federal Register** on March 8, 1999. Copies of the rule were mailed to all Committee members and alternates, the Raisin Bargaining Association, handlers and dehydrators. In addition, the rule was made available through the Internet by the Office of the Federal Register. That rule provided for a 60-day comment period which ended May 7, 1999 (64 FR 10919). No comments were received.

After consideration of all relevant material presented, including the Committee's recommendation, and other information, it is found that this rule, as hereinafter set forth, will tend

to effectuate the declared policy of the Act.

1999 Amendment to Cotton Board Rules and Regulations Adjusting Supplemental Assessment on Imports

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Final rule.

SUMMARY: The Agricultural Marketing Service (AMS) is amending the Cotton Board Rules and Regulations by lowering the value assigned to imported cotton for the purpose of calculating supplemental assessments collected for use by the Cotton Research and Promotion Program. This action is required by this regulation on an annual basis to ensure that the assessments collected on imported cotton and the cotton content of imported products remain similar to those paid on domestically produced cotton.

EFFECTIVE DATE: July 7, 1999.

SUPPLEMENTARY INFORMATION:

Executive Order 12866

This rule has been determined to be "not significant" for purposes of Executive Order 12866, and, therefore, has not been reviewed by the Office of Management and Budget.

Executive Order 12988

This rule has been reviewed under Executive Order 12988, Civil Justice Reform. It is not intended to have retroactive effect. This rule would not preempt any state or local laws, regulations, or policies, unless they present an irreconcilable conflict with this rule.

The Cotton Research and Promotion Act provides that administrative proceedings must be exhausted before parties may file suit in court. Under Section 12 of the Act, any person subject to an order may file with the Secretary a petition stating that the order, any provision of the plan, or any obligation imposed in connection with the order is not in accordance with law and requesting a modification of the order or to be exempted therefrom. Such person is afforded the opportunity for a hearing on the petition. After the hearing, the Secretary would rule on the petition. The Act provides that the District Court of the United States in any district in which the person is an inhabitant, or has his principal place of business, has jurisdiction to review the Secretary's ruling, provided a complaint is filed within 20 days from the date of the entry of ruling.

Regulatory Flexibility Act

Pursuant to requirements set forth in the Regulatory Flexibility Act (RFA) (5 U.S.C. 601 *et seq.*) AMS has considered the economic impact of this action on small entities and has determined that its implementation will not have a significant economic impact on a substantial number of small businesses.

There are an estimated 16,000 importers who are presently subject to rules and regulations issued pursuant to the Cotton Research and Promotion Order. This rule will affect importers of cotton and cotton-containing products. The majority of these importers are small businesses under the criteria established by the Small Business Administration. This rule will lower the assessments paid by the importers under the Cotton Research and Promotion Order. Even though the assessment will be lowered, the decrease is small and will not significantly affect small businesses.

The current assessment on imported cotton is \$0.011850 per kilogram of imported cotton. The amended assessment is \$0.011397, a decrease of \$0.000453 or a 3.8 percent decrease from the current assessment. From January through December 1998 approximately \$20.9 million was collected at the \$0.011850 per kilogram rate. Should the volume of cotton

products imported into the U.S. remain at the same level in 1999, one could expect the decreased assessment to generate \$20.1 million or a 3.8 percent decrease from 1998.

Paperwork Reduction

In compliance with Office of Management and Budget (OMB) regulations (5 CFR part 1320) which implement the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*) the information collection requirements contained in the regulation to be amended have been previously approved by OMB and were assigned control number 0581-0093.

Background

The Cotton Research and Promotion Act Amendments of 1990 enacted by Congress under Subtitle G of Title XIX of the Food, Agriculture, Conservation and Trade Act of 1990 on November 28, 1990, contained two provisions that authorized changes in the funding procedures for the Cotton Research and Promotion Program.

These provisions are: (1) The assessment of imported cotton and cotton products; and (2) termination of the right of cotton producers to demand a refund of assessments.

An amended Cotton Research and Promotion Order was approved by producers and importers voting in a referendum held July 17-26, 1991 and the amended Order was published in the **Federal Register** on December 10, 1991, (56 FR 64470). Proposed rules implementing the amended Order were published in the **Federal Register** on December 17, 1991, (56 FR 65450). Implementing rules were published on July 1 and 2, 1992, (57 FR 29181) and (57 FR 29431), respectively.

This rule will decrease the value assigned to imported cotton in the Cotton Board Rules and Regulations (7 CFR 1205.510 (b) (2)). This value is used to calculate supplemental assessments on imported cotton and the cotton content of imported products. Supplemental assessments are the second part of a two-part assessment. The first part of the assessment is levied on the weight of cotton produced or imported at a rate of \$1 per bale of cotton which is equivalent to 500 pounds or \$1 per 226.8 kilograms of cotton.

Supplemental assessments are levied at a rate of five-tenths of one percent of the value of domestically produced cotton, imported cotton, and the cotton content of imported products. The agency has adopted the practice of assigning the calendar year weighted average price received by U.S. farmers for Upland cotton to represent the value of imported cotton. This is done so that the assessment on domestically produced cotton and the assessment on imported cotton and the cotton content of imported products remain similar. The source for the average price statistic is "Agricultural Prices", a publication of the National Agricultural Statistics Service (NASS) of the Department of Agriculture. Use of the weighted average price figure in the calculation of supplemental assessments on imported cotton and the cotton content of imported products yields an assessment that approximates assessments paid on domestically produced cotton in the prior calendar year.

The current value of imported cotton as published in the **Federal Register** (63 FR 27818) on May 21, 1998, for the purpose of calculating supplemental assessments on imported cotton is \$1.4881 per kilogram. This number was calculated using the annual weighted average price received by farmers for Upland cotton during the calendar year 1997 which was \$0.675 per pound and multiplying by the conversion factor 2.2046. Using the Average Weighted Price Received by U.S. farmers for Upland cotton for the calendar year 1998, which is \$0.634 per pound, the new value of imported cotton is \$1.3977 per kilogram. The amended value is \$0.0904 per kilogram less than the previous value.

An example of the complete assessment formula and how the various figures are obtained is as follows:

- One bale is equal to 500 pounds.
- One kilogram equals 2.2046 pounds.
- One pound equals 0.453597 kilograms.

One Dollar Per Bale Assessment Converted to Kilograms

A 500 pound bale equals 226.8 kg. ($500 \times .453597$).

\$1 per bale assessment equals \$0.002000 per pound ($1 \div 500$) or \$0.004409 per kg. ($1 \div 226.8$).

Supplemental Assessment of 5/10 of One Percent of the Value of the Cotton Converted to Kilograms.

The 1998 calendar year weighted average price received by producers for Upland cotton is \$0.634 per pound or \$1.3977 per kg. (0.634×2.2046) = 1.3977.

Five tenths of one percent of the average price in kg. equals \$0.006988 per kg. ($1.3977 \times .005$).

Total Assessment

The total assessment per kilogram of raw cotton is obtained by adding the \$1 per bale equivalent assessment of \$0.004409 per kg. and the supplemental assessment \$0.006988 per kg. which equals \$0.011397 per kg.

The current assessment on imported cotton is \$0.011850 per kilogram of imported cotton. The amended assessment is \$0.011397, a decrease of \$0.000453 per kilogram. This decrease reflects the decrease in the Average Weighted Price of Upland Cotton Received by U.S. Farmers during the period January through December 1998.

Since the value of cotton is the basis of the supplemental assessment calculation and the figures shown in the right hand column of the Import Assessment Table 1205.510 (b)(3) are a result of such a calculation, the figures in this table have been revised. These figures indicate the total assessment per kilogram due for each Harmonized Tariff Schedule (HTS) number subject to assessment.

One HTS number subject to assessment pursuant to this regulation and found in the assessment table has been changed. In order to maintain consistency between the HTS and the assessment table, the changes to this one number have been incorporated into the assessment table. The last two digits of this number were changed to provide for statistical reporting purposes and involve no physical change to the products they represent. Therefore, the assessment rate is not affected by the change. The assessment rate for the one number has been applied to each of the new replacement numbers in the assessment table. The following table represents the changes:

Old No.	New No.	Conversion factor	Assessment cents/kg.

	6302100008	1.1689	1.3322
	6302100015	1.1689	1.3322

A proposed rule with a request for comments was published in the **Federal Register** (64 FR 19072) on April 19, 1999. No comments were received during the comment period (April 19 through May 19, 1999).

SUPPLEMENTARY INFORMATION:

History

On April 5, 1999, the FAA proposed to amend 14 CFR part 71 by modifying the Class E airspace area at Santa Rosa, CA (64 FR 16369). Controlled airspace extending upward from 700 feet above the surface is needed to contain aircraft executing the GPS RWY 14 and GPS RWY 32 SIAP at Sonoma County Airport. This action will provide adequate controlled airspace for IFR operations at Sonoma County Airport, Santa Rosa, CA.

Interested parties were invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. Class E airspace designations for airspace extending from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9F dated September 10, 1998, and effective September 16, 1998, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies the Class E airspace area at Santa Rosa, CA. Controlled airspace extending upward from 700 feet above the surface is required for aircraft executing the GPS RWY 14 and GPS RWY 32 SIAP at Sonoma County Airport. The effect of this action will provide adequate airspace for aircraft executing the GPS RWY 14 and GPS RWY 32 SIAP at Sonoma County Airport, Santa Rosa, CA.
