**Immediate Closure of Area to the Discharge of all Weapons, Including Firearms and Bow and Arrow, In and Around Prairie Dog Towns Along the East Side of Beartooth Road Which Parallels the East Side of Holter Lake, Located 31 Miles Northeast of Helena, MT**

**AGENCY:** Butte Field Office, Bureau of Land Management, DOI.

**ACTION:** Notice of closure.

**SUMMARY:** Notice is hereby given that effective immediately all public lands administered by the Bureau of Land Management (BLM) that contain populations of prairie dogs along the Beartooth Road on the east side of Holter Lake are closed to the discharge of weapons in portions of:

#### Principal Meridian, Montana

T. 14 N., R. 3 W.,  
Sec. 15, NW¼.

This closure is yearlong and will remain in effect until further notice.

The reason for the closure is to provide protection for the black-tailed prairie dog, a BLM-sensitive species. Shooting prairie dogs is a popular recreational activity and probably contributes to the species' sensitive status. People with firearms have been observed in the vicinity of the Beartooth Road prairie dog town.

This action is taken under the authority of 43 CFR part 8364 and is in support of BLM Manual Policy (6840.02B) to ensure that actions authorized on BLM-administered lands do not contribute to the need to list any other Special Status Species under the provisions of the Endangered Species Act. On March 25, 1999, the U.S. Fish and Wildlife Service (USFWS) published a 90-day notice finding that substantial information indicates that listing the black-tailed prairie dog may be warranted (64 FR 144424). The USFWS is currently reviewing the status of the black-tailed prairie dog to determine if it should be listed as a threatened species.

**FOR FURTHER INFORMATION CONTACT:** Wildlife Biologist Bill Dean at the BLM Butte Field Office, 106 North Parkmont, Butte, Montana 59701, or telephone 406-494-5059.

**SUPPLEMENTARY INFORMATION:** The Proposed Management Plan presents objectives and decisions for managing public lands for the following resource categories or uses: Geology; Paleontology; Archaeology; History; Soils and Biological Soil Crusts; Vegetation and Vegetation Management; Riparian; Special Status Plant Species; Fish and Wildlife; Special Status Animal Species; Water; Air Quality; Recreational Facilities, Activities, and Uses; Rights-of-Way; Commercial Uses (Filming, Outfitter and Guides, Vending); Forestry Products; Valid Existing Rights; Livestock Grazing; Water Related Developments; Wildfire Management; Wildlife Services; Visual Resource Management; and Wild and Scenic Rivers. The BLM has concluded that 223 miles of river segments would be recommended as suitable for

Congressional designation under the Wild and Scenic Rivers Act. This Proposed Management Plan promotes opportunities for community based partnerships and collaborative processes for successful and effective management of public lands into the future.

The Draft Management Plan/Draft EIS was released for public review and comment in November of 1998 and was followed by a four month comment period. The draft management plan/draft EIS analyzed five alternative management strategies for public lands in GSENM, Utah.

The Monument Planning Office received over 6,500 comment letters on the draft management plan/draft EIS from local, State and Federal governments, interest groups, and the public at large. Since the release of the draft management plan/draft EIS, public meetings, workshops, mailings, and briefings have been conducted to solicit comments, new information, and ideas for the Proposed Management Plan.

The Proposed Management Plan responds to public comments received on the draft management plan/draft EIS. The Proposed Management Plan also corrects errors in the draft management plan/draft EIS identified through the public comment process and internal BLM review. The Proposed Management Plan and associated analysis presents a refined and modified version of the Preferred Alternative and the accompanying impact analysis contained in the draft management plan/draft EIS. The Proposed Management Plan can be used in conjunction with the draft management plan/draft EIS to facilitate review of the initial five alternatives. The description of the affected environment and detailed descriptions of the alternatives contained in the draft management plan/draft EIS, as well as some of the appendices, are referenced but not reproduced in the Proposed Management Plan.

Copies of the Proposed Management Plan are available from GSENM Planning Office, 335 South Main Street, Suite 010, Cedar City, Utah, 84720, 435-865-5100. Public reading copies will be available for review at all government-document depository libraries, and at the following BLM locations: Office of Public Affairs, Main Interior Building, 18th and C Streets N.W., Washington, DC 20240; Information Access Center (4th Floor), Utah BLM State Office, 324 S.
