FEDERAL EMERGENCY MANAGEMENT AGENCY

Guidance for Developing State, Tribal, and Local Radiological Emergency Response Planning and Preparedness for Transportation Accidents

AGENCY: Federal Emergency
Management Agency.

ACTION: Notice of availability.

SUMMARY: FEMA announces the availability of the document "Guidance for Developing State, Tribal, and Local Radiological Emergency Response Planning and Preparedness for Transportation Accidents, FEMA-REP-5, Revision 2," and requests comments.

DATES: Comments and responses should be sent no later than November 3, 1999.

ADDRESSES: Comments on "FEMA-REP-5, Rev. 2" should be sent to the Rules Docket Clerk, Office of the General Counsel, room 840, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (facsimile) (202) 646-4536.

FOR FURTHER INFORMATION CONTACT: William F. McNutt, Senior Policy Advisor, Chemical and Radiological Preparedness Division, Preparedness, Training, and Exercises Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-2857, (facsimile) (202) 646-3508.

SUPPLEMENTARY INFORMATION: FEMA-REP-5 was prepared by the Transportation Accidents Subcommittee of the Federal Radiological Preparedness Coordinating Committee. It represents the efforts of several federal agencies, state organizations, and a Native American organization. The intended use of FEMA-REP-5 is to provide guidance to State, Tribal and local government officials who must prepare or revise emergency response plans for transportation accidents involving radioactive materials.

Although use of the guidance is not mandatory, it is recommended for use to develop a hazard specific plan, as part of an all-hazards emergency response plan, at all levels of government.

Published first in March 1983, this guidance document was revised and published in June 1992 as Revision 1. The current revision is intended to supersede all previous issues. When the

defined objectives are applied, planning will include all aspects of preparedness from pre-accident coordination and assignment of responsibilities, to post-accident operations, cleanup, and site restoration. The State, Tribal or local government office that adheres to the expressed concepts and recommendations found in FEMA-REP-5, Rev. 2, will be able to prepare an emergency operations plan that satisfies the need to protect both workers and citizens while safely responding to a radioactive materials transportation accident. The plan can be appended to the overall emergency operations plan for the jurisdiction.

Our goal is to provide guidance by means of a useful document that enables officials at all levels of government to plan for possible hazardous accidents. We welcome your comments on this document. All comments will be considered.

Dated: July 30, 1999.

Kay C. Goss,

Associate Director for Preparedness, Training, and Exercises.
