#### SUPPLEMENTARY INFORMATION:

##### Authority

This action is authorized under the Omnibus Crime Control and Safe Streets Act of 1968, sections 201-203, as amended, 42 U.S.C. 3721-23 (1994).

##### Background

The National Institute of Justice (NIJ) is expanding its Arrestee Drug Abuse Monitoring (ADAM) program by enrolling 15 new sites in Fiscal Year 2000. The ADAM system consists of 35 sites with an expected total of 75 sites by FY 2001. Under this solicitation municipalities can apply to be added to the ADAM network. Eligible municipalities have been determined based on population size, or include the

largest city in States with smaller populations. NIJ will select 15 new sites with an expectation that these municipalities will begin operating as ADAM sites during FY 2000, subject to the upcoming Congressional budget appropriations. Sites not selected in FY 2000 will continue to be eligible for enrollment in the subsequent year until the anticipated total of 75 ADAM sites has been reached. This solicitation is applicable only to the eligible municipalities who wish to apply for one of the 15 new ADAM sites to be added during FY 2000.

After new sites have been selected, NIJ will issue a separate solicitation for parties interested in receiving funds to manage and operate ADAM in the selected municipalities. Through this to-be-released solicitation, local data collection teams will compete against each other for the funding to manage data collection in the 15 new ADAM sites.

Eligible sites include Mobile, Mobile County, AL; Little Rock, Grant County, AK; Anaheim, Orange County, CA; Bakersfield, Kern County, CA; Fremont, Alameda County, CA; Fresno, Fresno County, CA; Oakland, Alameda County, CA; Riverside, Riverside County, CA; San Francisco, San Francisco County (S. #### Announcement of the Availability of the National Institute of Justice "NIJ Science and Technology Solicitation"

**AGENCY:** Office of Justice Programs, National Institute of Justice, Justice.

**ACTION:** Notice of NIJ Science and Technology Solicitation.

**SUMMARY:** Announcement of the availability of the National Institute of Justice "NIJ Science and Technology Solicitation."

**DATES:** Proposals must be received by 4:00 p.m. EST on October 7, 1999.

**ADDRESSES:** National Institute of Justice, 810 Seventh Street, NW, Washington, DC 20531.

**FOR FURTHER INFORMATION CONTACT:** For a copy of the solicitation, please call NCJRS 1-800-851-3420. For general information about application procedures for solicitations, please call the U.S. Department of Justice Response Center 1-800-421-6770.

**SUPPLEMENTARY INFORMATION:**

**Authority**

This action is authorized under the Omnibus Crime Control and Safe Streets Act of 1968, sections 201-203, as amended, 42 U.S.C. 3721-23 (1994).

**Background**

For fiscal year 2000, NIJ will accept proposals for technology-related awards under this solicitation, and several months later it will accept behavioral and social science-related awards under a separate solicitation. Therefore, it is important that you should determine whether your proposals should be reviewed by a peer review panel composed of technologists and criminal justice practitioners under this solicitation or by a peer review panel composed of social scientists and criminal justice practitioners under the social science open solicitation.

This solicitation is open to a wide variety of proposals in order to achieve a balanced portfolio of product development, implementation, and evaluation projects. This solicitation focuses on near-term (one to three years) development and implementation projects.

To assist in obtaining information that may be helpful in submitting a proposal, you are encouraged to use the resources and expertise of the NIJ National Law Enforcement and Corrections Technology Center (NLECTC) located in Rockville, Maryland; and the regional NLECTCs located in Rome, New York; Charleston, South Carolina; Denver, Colorado; El Segundo, California; and the Border Research and Technology Center (BRTC) located in San Diego, California. More information about the NLECTC system is available on the Internet at <<http://www.nlectc.org>>.

Keep in mind that cost considerations of resulting technology development products are a major concern. Most law enforcement and corrections agencies have limited financial resources to apply to the evaluation, development, implementation, or purchase of technology. This is especially true for

State and local agencies. These and related factors all influence the timeliness and the degree to which new technologies are accepted by administrators. Please consider the questions below when determining the usefulness of your proposal. In your proposal, you should incorporate information that addresses the general themes posed by these questions; however, it is not necessary to answer explicitly each question. How important is the new technology to law enforcement and corrections officers? What will be its impact on policing or correctional organizational structure and personnel requirements? How many units will be needed? What are the hidden costs (for example, new computers may require additional data input personnel, or highly specialized and complex equipment may incur expensive maintenance costs)? What, if any, are the net savings in labor or other costs? How much training is required to use and maintain the technology? How will the courts view the technology—in terms of liability or interference with personal freedom? What constitutional or other legal issues may arise from utilization of the technology? What is the breakdown of tasks with resource expenditures for each task?

To learn more about projects currently funded by NIJ, on the Internet go to <http://www.nlectc.org/techproj/> or call NIJ's Office of Science and Technology at 202-307-0645.

Interested organizations should call the National Criminal Justice Reference Service (NCJRS) at 1-800-851-3420 to obtain a copy of "NIJ Science and Technology Solicitation" (refer to document no.
