I. Project Background

The document entitled "Printed Wiring Board Cleaner Technologies Substitutes Assessment: Making Holes Conductive" (EPA 744–R–97–002a and b) details the findings of EPA's Design for the Environment (DfE) Printed Wiring Board (PWB) Project regarding alternative technologies for performing the "making holes conductive" function during the manufacture of PWB's. The draft report was released in August 1996 (August 22, 1997, 62 FR 44692; (FRL– 5724–5)). Minor changes made due to internal review have been incorporated in the final document.

EPA's Design for the Environment (DfE) Program began working with the Printed Wiring Board (PWB) Industry in 1994, to identify and evaluate environmentally beneficial and cost effective alternatives to PWB manufacturing technologies. The DfE PWB Project is a voluntary, cooperative partnership between EPA, the PWB industry, public-interest groups, and other stakeholders. The goal of this Project is to provide information that will assist the PWB industry in making informed decisions when evaluating and implementing beneficial alternatives to PWB manufacturing technologies.

For purposes of this study, the project evaluated seven alternative technologies for performing the "making holes conductive" (MHC) function during the manufacture of PWBs. The nonconveyorized electroless copper process was considered the baseline process against which alternative technologies and equipment configurations were compared. With this notice, EPA is announcing the availability of the final document entitled "Printed Wiring Board Cleaner Technologies Substitutes Assessment: Making Holes Conductive."

This document marks the culmination of research by the DfE PWB Project and the University of Tennessee Center for Clean Products and Clean Technologies. The data gathered on the comparative risk, performance, cost, and natural resource requirements of the alternatives and baseline technologies are presented in this document.

Dated: January 21, 1999.

FEDERAL EMERGENCY MANAGEMENT AGENCY

[FEMA-3134-EM]

Illinois; Emergency and Related Determinations

AGENCY: Federal Emergency Management Agency (FEMA). **ACTION:** Notice.

SUMMARY: This is a notice of the Presidential declaration of an emergency for the State of Illinois (FEMA–3134–EM), dated January 8, 1999, and related determinations.

EFFECTIVE DATE: January 8, 1999.

FOR FURTHER INFORMATION CONTACT: Madge Dale, Response and Recovery Directorate, Federal Emergency Management Agency, Washington, DC 20472, (202) 646–3260.

SUPPLEMENTARY INFORMATION: Notice is hereby given that, in a letter dated January 8, 1999, the President declared an emergency under the authority of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 *et seq.*), as follows:

I have determined that the impact in certain areas of the State of Illinois, resulting from the record/near record snow on January 1, 1999, and continuing, is of sufficient severity and magnitude to warrant an emergency declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, P.L. 93–288 as amended, ("the Stafford Act"). I, therefore, declare that such an emergency exists in the State of Illinois.

In order to provide Federal assistance, you are hereby authorized to allocate from funds available for these purposes, such amounts as you find necessary for Federal emergency assistance and administrative expenses.

You are authorized to provide emergency protective measures under the Public Assistance program to save lives, protect public health and safety, and property. Other forms of assistance under Title V of the Stafford Act may be added at a later date, as you deem appropriate. You are further authorized to provide this emergency assistance in the affected areas for a period of 48 hours. You may extend the period of assistance, as warranted. Consistent with the requirement that Federal assistance be supplemental, any Federal funds provided under the Stafford Act for Public Assistance will be limited to 75 percent of the total eligible costs.

^{*}Session closed-exempt pursuant to 5 U.S.C. 552b(c) (8), (9), and (10).
