Notice of Proposed Withdrawal; Oregon

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Department of the Interior, Bureau of Land Management proposes to withdraw approximately 619,000 acres of Federal lands, 73,900 acres of Federal minerals, and 37,400 acres of Federal surface lands to protect the nationally significant ecologic and biologic diversity values of the Steens Mountain area. Subject to valid existing rights, this notice segregates the Federal lands and minerals described below for up to 2 years from the non-discretionary public land and mining laws.

FOR FURTHER INFORMATION CONTACT:
 Miles Brown, BLM, Andrews Resource Area Manager, HC 74-12533 Hwy 20 West, Hines, Oregon 97738, 541-573-4425.

SUPPLEMENTARY INFORMATION: The purpose of the proposed withdrawal is to protect the nationally significant ecologic and biologic diversity of the Steens Mountain area, which contains outstanding scenic and recreation values, and special status plant and animal species and their habitats, while the Department of the Interior considers whether a special management designation for the area is warranted and the views of the public on such a designation. The proposal, if finalized, would withdraw, subject to valid existing rights, the following described Federal lands and minerals from the non-discretionary public land and mining laws. The Federal lands and minerals will remain open to the discretionary public land and mineral laws. Non-Federal lands and minerals are not intended to be included in this proposal unless they are subsequently acquired by the United States. The lands and minerals proposed for withdrawal are depicted on the map entitled "Steens Surface and Sub-Surface Estates" dated August 11, 1999 located in official file OR-55174 at the Bureau of Land Management Oregon State Office, 1515 S.W. 5th Avenue, Portland, Oregon, 97208.

4. For a period of 2 years from the date of publication of this notice in the **Federal Register**, the lands and minerals will be segregated as specified above, subject to valid existing rights, unless the application is denied or canceled or the withdrawal is finalized prior to the end of the segregation. Further, the segregation does not preclude the issuance of licenses, permits, cooperative agreements, or discretionary land use authorizations, upon approval of the authorized officer of the Bureau of Land Management. The proposal includes withdrawing the reserved Federal mineral interest underlying private surface, but would not affect surface rights of those private lands. All previously authorized activities and permitted uses of the segregated lands may be continued in accordance with the terms of the authorization.

5. Any non-Federal lands within the boundary described above, if acquired by the United States, would become subject to the terms and conditions of this withdrawal.
