National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 990422103–9209–02; I.D. 090799A]

Fisheries of the Northeastern United States; Summer Flounder Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notification of waiver of annual Federal summer flounder recreational measures.

SUMMARY: NMFS announces a determination by the Atlantic States Marine Fisheries Commission (Commission) of conservation equivalent state management measures for the recreational summer flounder fishery. Regulations governing the summer flounder fishery require publication of this notification to waive the annual Federal summer flounder recreational measures and to advise vessel permit holders of the equivalent recreational measures approved by the Commission for each state involved. The intent of this action is to conserve summer flounder, while providing the states the ability to tailor their regulations to the fisheries within their respective states.

DATES: Effective 0001 hours, September 27, 1999, through December 31, 1999.

FOR FURTHER INFORMATION CONTACT: Paul H. Jones, Fishery Policy Analyst, (978) 281–9273.

SUPPLEMENTARY INFORMATION:

Regulations governing the summer flounder fishery are found at 50 CFR part 648. Interim regulations are in effect for the period September 9, 1999, through March 9, 2000. (See the correction to 50 CFR part 648, Fisheries of the Northeastern United States; Summer Flounder, Scup, and Black Sea Bass Fisheries; Recreational Measures for the 1999 Fisheries published elsewhere in this issue.) These regulations allow states to implement, on an annual basis, recreational measures that conserve summer flounder to the same extent as the annual Federal measures specified under § 648.100(c) to achieve the recreational harvest limit. The Summer Flounder Technical Committee of the Commission makes a determination of equivalency annually for any state proposing alternative recreational

measures. Any state may implement conservation equivalent measures without a determination of equivalency by the Summer Flounder Technical Committee review, if the state uses the state-specific tables provided by the Commission and maintains a 15-inch (38-cm) or greater total length minimum fish size.

Once a state receives a determination of equivalency from the Summer Flounder Technical Committee or a state implements conservation equivalent measures contained in the state-specific table provided by the Commission, the Commission is

required to recommend to the Administrator, Northeast Region (Regional Administrator) that a notification be published in the *Federal Register* to waive the annual Federal recreational summer flounder measures and to notify vessel permit holders of the equivalent recreational measures approved by the Commission for each state involved.

The Regional Administrator received a determination from the Commission on July 12, 1999, stating that all states included in the Summer Flounder, Scup, and Black Sea Bass Interstate Fishery Management Plan have

implemented conservation equivalent recreational management measures using a combination of fish sizes, possession limits, and closed seasons that achieve the required 40-percent reduction in fishing effort for 1999. Therefore, effective 0001 hours, September 27, 1999, through December 31, 1999, the annual Federal recreational summer flounder management measures are waived and the following conservation equivalent recreational measures are approved for each state affected.

	Minimum Size inches (See note)	Possession Limit/ Person	Open Season
Massachusetts	15	8-fish	May 29-Sept.11
Rhode Island	15	8-fish	May 29-Sept.11
Connecticut	15	8-fish	May 29-Sept.11
New York	16	8-fish	Jan.1-Dec.31
New Jersey	15.5	8-fish	May 15-Oct.11
Delaware	15	8-fish	Aug.8-July 15
Maryland			
Bay	15	8-fish	May 8- Dec.31
Coast	15.5	8-fish	Apr. 15-Nov.30
Potomac River	15	4-fish	May 1-Dec. 31
Fisheries Comm.			
Virginia	16	8-fish	Aug.1-July 24
North Carolina	15	8-fish	Jan.1-Dec.31

Note: Metric equivalents are 16 in = 41 cm, 15.5 in = 39 cm, and 15 in = 38 cm.

Vessels fishing in the EEZ are subject to the regulations of the state where the vessel is registered or homeported or where the fish are landed, whichever is more restrictive.

Classification

This action is required by 50 CFR part 648 and is exempt from review under E.O. 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: September 21, 1999.

Gary C. Matlock,

Director, Office of Sustainable Fisheries,
National Marine Fisheries Service.

Fisheries of the Northeastern United States; Summer Flounder, Scup, and Black Sea Bass Fisheries; Recreational Measures for the 1999 Fisheries; Correction

AGENCY: National Marine Fisheries
Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA),
Commerce.

ACTION: Correction.

SUMMARY: This document contains corrections to the effective dates of the recreational measures for the 1999 fisheries that was published on September 9, 1999, and adds an appropriate justification for the change in date in the Classification section.

DATES: Effective September 9, 1999.

FOR FURTHER INFORMATION CONTACT: Paul
H. Jones, Fisheries Policy Analyst, (978)

SUPPLEMENTARY INFORMATION:

Background

NMFS published a final rule and interim provisions for the 1999 recreational fisheries for summer flounder, scup, and black sea bass in the **Federal Register** on September 9, 1999 (64 FR 48965). The rule delayed the effectiveness of the conservation equivalent measures for the summer flounder fishery (§ 648.107) until October 12, 1999. However, the states have already complied with the requirements of the section and the Atlantic States Marine Fisheries Commission has certified that the states have implemented conservation equivalent measures. Delaying the effectiveness of this regulation would preclude the states from tailoring their regulations to meet the needs of their individual fisheries and potentially place unnecessary restrictions on fishermen.

Corrections
