### Gulf of Mexico Fishery Management Council; Public Hearings

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of public hearings; request for comments.

**SUMMARY:** The Gulf of Mexico Fishery Management Council (Council) will convene public hearings to receive comments on a Draft Charter Vessel/Headboat Permit Moratorium Amendment to the Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico and to the Fishery Management Plan for Coastal Migratory Pelagic Resources in the Gulf of Mexico and South Atlantic (Draft Amendment).

#### FOR FURTHER INFORMATION CONTACT:

Wayne Swingle, Executive Director, Gulf of Mexico Fishery Management Council; telephone: 813-228-2815.

**SUPPLEMENTARY INFORMATION:** In the Gulf of Mexico region there are presently about 1,286 charter vessels and 91 headboats. This represents an estimated 32-percent increase in the number of charter vessels and a 6-percent decrease in the number headboats between 1988 and 1998. Additionally, the number of charter vessel trips has increased 187 percent between 1988 and 1997.

The Council is considering implementation of a temporary moratorium on the issuance of charter vessel/headboat permits to fish the exclusive economic zone (EEZ) for reef fish and coastal migratory pelagics (mackerel) fish. A moratorium, if adopted by the Council and approved and implemented by NMFS, would provide a basis for the development of a more comprehensive effort limitation program for this segment of the recreational fisheries that could provide better long-term fishing effort control.

The Draft Amendment considers seven features of the proposed moratorium: (1) The duration of the moratorium; (2) initial eligibility requirements for a permit; (3) permit transfers during the moratorium; (4) vessel size for permit transfer; (5) the reissuance of permits not renewed; (6) a permit appeal process; and (7) vessel reporting. At present, the Council suggests a preferred alternative

containing the following elements: (1) The establishment of a 3-year charter vessel/headboat permit moratorium; (2) an initial eligibility requirement according to which all persons holding charter vessel/headboat permits on September 16, 1999, are eligible; (3) the allowance of permit transfers during the moratorium between (a) vessels owned by the permit holder and (b) individuals without transfer of the vessel; and (4) NMFS's suspension of permits not renewed (or permanently revoked) during the moratorium.

The Council has not selected preferred alternatives for (1) vessel size restriction on permit transfers, (2) the appeals process under moratorium, or (3) vessel reporting requirements.
