

submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a–81u), and the regulations of the Board (15 CFR part 400). It was formally filed on November 24, 1999.

Imation Enterprises Corporation has four sites with 320 employees in Custer County, Oklahoma. *Site 1* (155 acres) is located at 2000 East Frontage Road in Weatherford, Oklahoma; *Site 2* (3 acres) is located at 1300 Lera Drive in Weatherford, Oklahoma and 3501 East Main Street, Weatherford, Oklahoma; *Site 3* (2.39 acres) is located at 308 Wilson Road, Weatherford, Oklahoma; and *Site 4* (3.27 acres) is located at 7815 Gemini Boulevard, Oklahoma City, Oklahoma. The Imation facilities are used for the manufacturing, testing, packaging and warehousing of 1.44 MB standard and Superdisk™ high capacity magnetic floppy diskettes, media for magnetic floppy diskettes and Superdisk™ 3.5™ internal and external drives (HTS 8523.20 and 8471.70, duty free). Components and materials sourced from abroad (representing 88% of all parts consumed in manufacturing) include: carbon black, iron oxides, polypropylene, polystyrene and polycarbonate resin, acrylic polymers, articles of plastic and paper, helical springs, stainless steel tape guides, electronic conductors and power supplies for data processing, floppy magnetic disk drive units, and electric conductors (HTS 2803, 2821, 3902, 3903, 3907, 3923, 2926, 4807, 4811, 4819, 4821, 4823, 7326.90, 8471 and 8544 duty rate ranges from duty free to 10.2%). The application also indicates that the company may in the future import under FTZ procedures other materials used in the production of data storage products.

FTZ procedures would exempt Imation from Customs duty payments on the foreign components used in export production. Some 50 percent of the plant's shipments are exported. On its domestic sales, Imation would be able to choose the duty rates during Customs entry procedures that apply to finished data storage products (duty free) for the foreign inputs noted above. Also, Imation has submitted applications for subzone status at three additional locations, and products shipped to facilities with subzone status could be further processed while remaining in zone status. The request indicates that the savings from FTZ procedures would help improve the plant's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been appointed examiner to

investigate the application and report to the Board.

Public comment on the application is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is February 1, 2000. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to February 16, 2000).

A copy of the application and the accompanying exhibits will be available for public inspection at each of the following locations:

DEPARTMENT OF COMMERCE

International Trade Administration

Extension of Time Limit for Final Results of Five-Year Reviews

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limit for final results of five-year ("sunset") Reviews.

SUMMARY: The Department of Commerce ("the Department") is extending the time limit for the final results of seven expedited sunset reviews initiated on August 2, 1999 (64 FR 41915) covering various antidumping duty orders as well as a suspended countervailing duty investigation. Based on adequate responses from domestic interested parties and inadequate responses from respondent interested parties, the Department is conducting expedited sunset reviews to determine whether revocation of the antidumping duty orders and suspended countervailing duty investigation would be likely to lead to continuation or recurrence of dumping or a countervailable subsidy.

As a result of these extensions, the Department intends to issue its final results not later than February 28, 2000.

EFFECTIVE DATE: December 3, 1999.

FOR FURTHER INFORMATION CONTACT:

Scott E. Smith or Melissa G. Skinner, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C. 20230; telephone: (202) 482-6397, or (202) 482-1560 respectively.

Extension of Final Results

In accordance with section 751(c)(5)(C)(v) of the Tariff Act of 1930, as amended ("the Act"), the Department may treat a review as extraordinarily complicated if it is a review of a transition order (*i.e.*, an order in effect on January 1, 1995; *see* section 751(c)(6)(C) of the Act). The Department has determined that the sunset reviews of the following antidumping duty orders and suspended countervailing duty investigation are extraordinarily complicated:

A-588-815 Grey Portland Cement and Cement Clinker from Japan

C-307-804 Grey Portland Cement and Cement Clinker from Venezuela

A-588-817 Flat Panel Displays (Electroluminescent) from Japan

A-570-808 Chrome-Plated Lug Nuts from the People's Republic of China

A-583-810 Chrome-Plated Lug Nuts from Taiwan

A-557-805 Extruded Rubber Thread from Malaysia

A-823-802 Uranium from the Ukraine

Therefore, the Department is extending the time limit for completion of the final results of these reviews until not later than February 28, 2000, in accordance with section 751(c)(5)(B) of the Act.

Dated: November 29, 1999.

Richard W. Moreland,

Acting Assistant Secretary for Import Administration.

Final Results of Expedited Sunset Reviews: Certain Carbon Steel Butt-Weld Pipe Fittings From Brazil, Taiwan, Japan, Thailand, and The People's Republic of China

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of final results of expedited sunset reviews: Certain carbon steel butt-weld pipe fittings from Brazil, Taiwan, Japan, Thailand, and The People's Republic of China.

SUMMARY: On May 3, 1999, the Department of Commerce ("the Department") initiated sunset reviews of the antidumping duty orders on certain carbon steel butt-weld pipe fittings ("pipe fittings") from Brazil, Taiwan, Japan, Thailand, and The People's Republic of China ("China") (64 FR 23596) pursuant to section 751(c) of the Tariff Act of 1930, as amended ("the Act"). On the basis of a notice of intent to participate and an adequate response filed on behalf of a domestic interested party and inadequate response (in these cases no response) from respondent interested parties in each of these reviews, the Department decided to conduct expedited reviews. As a result of these reviews, the Department finds that revocation of the antidumping duty orders would be likely to lead to the continuation or recurrence of dumping at the levels indicated in the Final Results of Reviews section of this notice.
