The notice was published in the **Federal Register** on January 29, 1999 (64 FR 4712).

At the request of the company, the Department reviewed the certification for workers of the subject firm. The company reports that Inland Resources is the parent firm of Inland Production Company, Myton, Utah. The company also reports that worker separations occurred at the Denver, Colorado location of Inland Resources. The Denver, Colorado workers provide administrative services to support the production of crude oil and natural gas at Inland Production in Myton, Utah.

Based on these findings, the Department is amending the certification to include workers of Inland Resources, Denver, Colorado.

The intent of the Department's certification is to include all workers of Inland Production Company who were adversely affected by increased imports of crude oil and natural gas.

The amended notice applicable to TA-W-35,354 is hereby issued as follows:

Martin-Decker/Totco, Williston, ND; Notice of Revised Determination on Reopening

In response to a letter of February 5, 1999, from a petitioner requesting administrative reconsideration of the Department's denial of TAA for workers of the subject firm, the Department reopened its investigation for the former workers of Martin-Decker/Totco, Williston, North Dakota.

The initial investigation resulted in a negative determination issued on December 29, 1998, because the workers did not produce an article as required

for certification under Section 222 of the Trade Act. The denial notice was published in the **Federal Register** on January 25, 1999 (64 FR 3721).

By letter of February 5, 1999, a petitioner provided additional information to demonstrate that the workers were engaged in employment related to oil field drilling services and that revenues and employment declined at the subject firm during the relevant time period. Aggregate U.S. imports of crude oil and natural gas increased in the period January through October, 1998, compared to the same time period one year earlier. The declines in revenues and employment resulted from a decreased demand for exploration and drilling activities from oil industry clients due to the increase in U.S. oil and gas imports.

Conclusion

After careful consideration of the new facts obtained on reopening, it is concluded that increased imports of articles like or directly competitive with greige goods produced by the subject firm contributed importantly to the decline in revenues and to the total or partial separation of workers of the subject firm. In accordance with the provisions of the Trade Act of 1974, I make the following revised determination:

All workers of Martin-Decker/Totco, Williston, North Dakota who became totally or partially separated from employment on or after October 20, 1997, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974.

Signed in Washington, D.C. this 11th day of February 1999.
