SUMMARY: Pursuant to its authority under 39 U.S.C. 407, the Postal Service is proposing changes in international postal rates for certain surface mail categories. DATES: Comments on the proposed changes must be received on or before March 31, 2000.

ADDRESSES: Written comments should be sent to the Manager, International Pricing, International Business, U.S. Postal Service, 475 L'Enfant Plaza SW Room 370-IBU, Washington DC 20260-6500. Stay of the Eight-Hour Portion of the
Findings of Significant Contribution
and Rulemaking for Purposes of
Reducing Interstate Ozone Transport

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: In today's action, EPA is proposing to amend a final rule it issued under section 110 of the Clean Air Act (CAA) related to interstate transport of pollutants. The EPA is proposing to stay its finding in the nitrogen oxides State Implementation Plan Call (NO_x SIP Call) related to the 8-hour ozone standards.

In the final NO_x SIP Call, EPA found that emissions of NO_x from 22 States and the District of Columbia (23 States) significantly contribute to downwind areas' nonattainment of the 1-hour ozone National Ambient Air Quality Standards (NAAQS). The EPA also separately found that NO_x emissions from the same 23 States significantly contribute to downwind nonattainment of the 8-hour ozone NAAQS. The EPA's findings under the 8-hour standards were completely separate from its 1-hour findings and were an independent basis for the rule.

Subsequently, the revised 8-hour ozone standards were remanded in *American Trucking Associations, Inc. v. EPA*, 175 F.3d 1027 (D.C. Cir. 1999). On October 29, 1999, a panel of the U.S. Court of Appeals for the District of Columbia Circuit (D.C. Circuit) granted in part and denied in part EPA's rehearing request in that case, and the full Court denied EPA's request for rehearing *en banc*. The panel granted rehearing as to certain parts of its original opinion which address EPA's authority to implement the 8-hour ozone NAAQS. The rehearing decision continues to create uncertainty with respect to EPA's ability to rely upon the 8-hour standards as an alternative basis for the NO_x SIP Call at this time.

DATES: The comment period on this notice of proposed rulemaking (NPR) ends on April 17, 2000. Comments must be postmarked by the last day of the comment period and sent directly to the Docket Office listed in **ADDRESSES** (in duplicate form if possible). The EPA must receive requests for a hearing by March 13, 2000. Please refer to
