DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Petition for Exemption From the Federal Motor Vehicle Theft Prevention Standard; General Motors

AGENCY: National Highway Traffic Safety Administration (NHTSA), Department of Transportation (DOT).

ACTION: Grant of petition for exemption.

SUMMARY: This document grants in full the petition of General Motors Corporation (GM) for an exemption of a high-theft line, the Chevrolet Malibu, from the parts-marking requirements of the Federal Motor Vehicle Theft Prevention Standard. This petition is granted because the agency has determined that the antitheft device to be placed on the line as standard equipment is likely to be as effective in reducing and deterring motor vehicle theft as compliance with the parts-marking requirements of the Theft Prevention Standard.

DATES: The exemption granted by this notice is effective beginning with model year (MY) 2001.

FOR FURTHER INFORMATION CONTACT: Ms. Rosalind Proctor, Office of Planning and Consumer Programs, NHTSA, 400 Seventh Street, S.W., Washington, D.C. 20590. Ms. Proctor’s telephone number is (202) 366–0846. Her fax number is (202) 493–2290.

SUPPLEMENTARY INFORMATION: In a petition dated November 19, 1999, General Motors Corporation (GM), requested an exemption from the parts-marking requirements of the Theft Prevention Standard (49 CFR Part 541) for the Chevrolet Malibu and Chevrolet Venture car lines beginning with MY 2001. The petition is pursuant to 49 CFR Part 543, Exemption From Vehicle Theft Prevention Standard, which provides for exemptions based on the installation of an antitheft device as standard equipment on a car line.

Section 33106(b)(2)(D) of Title 49, United States Code, authorized the Secretary of Transportation to grant an exemption from the parts marking requirements for not more than one additional line of a manufacturer for MYs 1997–2000. However, for a model year after MY 2000, the number of lines for which the agency can grant an exemption is to be decided after the Attorney General completes a review of the effectiveness of parts marking and antitheft devices and finds that antitheft devices are an effective substitute for parts marking. 49 U.S.C. 33103(d)(3). The Attorney General has not yet made a finding and has not decided the number of lines, if any, for which the agency will be authorized to grant an exemption. Therefore, until this decision has been made by the Attorney General, the agency will continue to grant an exemption for not more than one additional line of any manufacturer. On December 21, 1999, the agency informed GM that until an authorization level for granting parts-marking exemptions has been established by the Attorney General, GM must determine which of the two lines for MY 2001 it seeks an exemption from the parts-marking requirements. In response, on January 4, 2000, GM withdrew its petition for exemption of the Chevrolet Venture car line and requested the agency to process its petition for exemption of the Chevrolet Malibu car line for MY 2001.

GM’s submittal is considered a complete petition, as required by 49 CFR Part 543.7, in that it met the general requirements contained in § 543.5 and the specific content requirements of § 543.6.

In its petition, GM provided a detailed description and diagram of the identity, design, and location of the components of the antitheft device for the new line. GM will install its Passlock antitheft device as standard equipment on its MY 2001 Chevrolet Malibu car line. GM stated that the Passlock device provides the same kind of functionality as the PASS-Key and PASS-Key II devices, which have been the basis for
