The Report and Order prescribed the way ILECs, including the BOCs, must account for transactions with affiliates involving, and allocate costs incurred in the provision of, both regulated telecommunications services and nonregulated services, including telemessaging, interLATA telecommunications and information services, telecommunications equipment and CPE manufacturing and others. The information collected under this submission enables the Commission to ensure that the subscribers to regulated telecommunications services do not bear the costs of these new nonregulated services and that transactions between affiliates and carriers will be at prices that do not ultimately result in unfair rates being charged to ratepayers.

*Needs and Uses:* Title IV of the ADA requires the Commission to ensure that telecommunications relay services are available to persons with hearing and speech disabilities in the United States. The Commission is required by 44 U.S.C. 225(d)(3) to enact and oversee a shared-funding mechanism (TRS Fund) for recovering the costs of providing interstate TRS. The Commission recently modified its rules to, among other things, require the notification of substantive changes to a state's TRS program and to allow for the filing of informal complaints. The information is needed to ensure compliance with agency policy.
