### Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Census 2000 Evaluation: Survey of Partners.

Form Number(s): D-1401, D-1401A(L), D-1401.F1(L), D-1401.F2(L), D-1401A(E), D-1401.1(E), D-1401(E).

Agency Approval Number: None.

Type of Request: New collection.

Burden: 5,333 hours.

Number of Respondents: 16,000.

Avg Hours Per Response: 20 minutes.

Needs and Uses: The Census 2000

Partnership Program works to establish partnerships with State, local and tribal governments; private industry; local governments and community groups. The goal is to increase the awareness of the census and to increase response rates, especially among historically undercounted populations.

The program has both a national and a regional focus. On the national level, the program is designed to implement promotional activities that may be sponsored and/or supported by national/umbrella government and nongovernmental organizations. In addition, the Census Bureau will partner with Fortune 500 companies to promote the importance of the census through the services and products they provide.

The regional partnership program reflects the Census Bureau's belief that the foundation for broad-based participation in the census must be built at the community level. Its primary purpose is to establish partnerships with state, local, and tribal governments; community organizations; businesses and the media.

This request is for clearance of an evaluation of that partnership program to be carried out via an information collection. A contractor will survey a

sample of partners through self-administered questionnaires. The questionnaire will ask the partners about the effectiveness of the marketing campaign and the partnership activities in motivating their constituents to complete and mail back their census questionnaires. The results will be used to evaluate the program, for 2010 planning purposes and to improve future census operations.

Affected Public: Businesses or other for-profit organizations, Not-for-profit organizations, Federal Government, State, Local or tribal Government.

Frequency: One-time.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 USC, sections 141 and 193.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Linda Engelmeier, DOC Forms Clearance Officer, (202) 482-3272, Department of Commerce, room 5033, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at LEngelme@doc.gov).

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Census Bureau is requesting clearance for the collection of data concerning the Voting and Registration Supplement to be conducted in conjunction with the November 2000 CPS. The Census Bureau sponsors these questions, which have been collected biennially in the CPS since 1964.

This survey has provided statistical information for tracking historical trends of voter and nonvoter characteristics in each Presidential or Congressional election since 1964. The data collected from the November supplement relates demographic characteristics (age, sex, race, education, occupation, and income) to voting and nonvoting behavior. The November CPS supplement is the only source of data that provides a comprehensive set of voter and nonvoter characteristics distinct from independent surveys, media polls, or other outside agencies. Federal, state, and local election officials use these data to formulate policies relating to the voting and registration process. College institutions, political party committees, research groups, and other private organizations also use the voting and registration data.

**II. Method of Collection**

The voting and registration information will be collected by both personal visit and telephone interviews in conjunction with the regular November CPS interviewing. All interviews are conducted using computer-assisted interviewing.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

The Census Bureau collects education finance data as part of its Annual Survey of State and Local Governments. This survey is the only comprehensive source of public fiscal data collected on a nationwide scale using uniform definitions, concepts and procedures. The collection covers the revenues, expenditures, debt, and assets of all public school systems. This data collection has been coordinated with the National Center for Education Statistics (NCES). The NCES uses this collection to satisfy its need for school system level finance data.

Information on the finance of our public schools is vital to assessing their effectiveness. This data collection makes it possible to access a single data base to obtain information on such things as per pupil expenditures and the percent of state, local, and federal funding for each school system. Recently, as exemplified by the establishment of the America 2000 education goals, there has been increased interest in improving the Nation's public schools. One result of this intensified interest has been a significant increase in the demand for school finance data.

The five forms used in the school finance portion of the survey are:

Form F-33. This form contains item descriptions and definitions of the elementary-secondary education finance items collected jointly by the Census Bureau and NCES. It is used primarily as a worksheet by the state education agencies that provide school finance data centrally for all of the school systems in their respective states. Most states supply their data by electronic means.

Form F-33-1. This form is used at the beginning of each survey period to solicit the assistance of the state education agencies. It establishes the
