

to eight weeks of the application deadline.

Fees

For this application cycle, the DOT will require each TIFIA applicant to pay a non-refundable application fee of \$5,000. Checks should be made payable to the Federal Highway Administration. The project sponsor applying for TIFIA credit assistance must submit this payment by the application deadline of July 5, 2000. There will be no credit processing fee for this application cycle. Selected applicants will, however, be required to pay fees for loan servicing activities associated with their TIFIA credit instruments. For subsequent application cycles, the DOT may adjust the amount of the application fee and may establish a credit processing fee (to recover all or a portion of the costs to the DOT of evaluating applications, selecting projects to receive assistance, and negotiating term sheets and credit agreements) on the basis of its program implementation experience. The DOT will publish these amounts in each **Federal Register** solicitation for applications.

Applicants shall not include application or credit processing fees or any other expenses associated with the application process (such as charges associated with obtaining the required preliminary rating opinion letter) among eligible project costs for the purpose of calculating the maximum 33 percent credit amount.

If there is insufficient budget authority to fund the TIFIA credit instrument for a qualified project that has been selected to receive assistance, the DOT and the approved applicant may agree upon a supplemental fee to be paid by or on behalf of the approved applicant at the time of execution of a term sheet to reduce the subsidy cost of that project. No such fee may be included among eligible project costs for the purpose of calculating the maximum 33 percent credit amount.
