8. To ensure proper receipt by EPA, be sure to identify the docket control number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

II. What Action Is the Agency Taking?

Under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) (7 U.S.C. 136p), at the discretion of the Administrator, a Federal or State agency may be exempted from any provision of FIFRA if the Administrator determines that emergency conditions exist which require the exemption. California Department of Pesticide Regulation has requested the Administrator to issue a specific exemption for the use of buprofezin on cotton to control silverleaf whitefly. Information in accordance with 40 CFR part 166 was submitted as part of this request.

As part of this request, the Applicant asserts that a new strain, or possibly a new species, of whitefly, referred to as the strain B of sweet potato whitefly, or the silverleaf whitefly, has been a major pest of cotton since the early 1990s. Since that time, this pest has caused extensive damage to cotton and vegetable crops. The Applicant claims that adequate control will not be achieved with currently registered products and alternative cultural practices. The Applicant points out that large populations of silverleaf whiteflies have demonstrated resistance to available insecticidal control. The Applicant indicates that without adequate control of this pest in cotton, significant economic losses will occur.

The Applicant proposes to make no more than one application of buprofezin, formulated as Applaud 70WP (70% active ingredient (a.i.)), at a rate of 0.35 lb. a.i. per acre, on up to 100,000 acres of cotton, in California. The use season proposed is June 1 to October 15, 2000. If all 100,000 acres were treated, a total of 50,000 lbs. of product, or 35,000 lbs. of active ingredient, would be used.

This notice does not constitute a decision by EPA on the application itself. The regulations governing section 18 of FIFRA require publication of a

notice of receipt of an application for a specific exemption proposing use of a new chemical (i.e., an active ingredient) which has not been registered by the EPA. The notice provides an opportunity for public comment on the application.

The Agency, will review and consider all comments received during the comment period in determining whether to issue the emergency exemption requested by the California Department of Pesticide Regulation.
