ENVIRONMENTAL PROTECTION AGENCY

[FRL-6527-6]

Agency Information Collection Activities: Proposed Collection; Comment Request; Information Collection Request for the Existing Concentration of Analytically Detectable Congeners of Polychlorinated Biphenyls, Dioxins, And Furans In Biosolids Generated By Publicly Owned Treatment Works (POTWs) Under the National Biosolids Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following proposed Information Collection Request (ICR) to the Office of Management and Budget (OMB): Information Collection Request for the existing concentration of analytically detectable congeners of Polychlorinated Biphenyls, Dioxins, Furans, in Biosolids generated by POTWs under the National Biosolids Program (40 CFR part 503), EPA ICR 1930.01. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before March 24, 2000.

ADDRESSES: Interested persons may obtain a copy of this ICR without charge by contacting Ash Sajjad, NPDES Branch, Water Division (WN-16J), U.S. Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, telephone number (312) 886-6112, E-mail address "sajjad.ash@epa.gov".

FOR FURTHER INFORMATION CONTACT: Ash Sajjad, telephone number (312) 886-6112, facsimile number (312) 886-7804, E-mail address "sajjad.ash@epa.gov".

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are 25 of the 33 POTWs that generated analytically detectable concentration of polychlorinated biphenyls (PCBs) in their biosolids reported in the 1988 NSSS.

Title: Survey Of The Existing Concentration Of Analytically Detectable Congeners Of Polychlorinated Biphenyls, Dioxins, and Furans In Biosolids Generated By POTWs Under The National Biosolids Program (40 CFR part 503) (EPA ICR Number 1930.01).

Abstract: EPA plans to conduct a survey of biosolids generated by a randomly selected subgroup of up to twenty five POTWs from the thirty three POTWs which tested positive for PCBs and reported in the 1988 NSSS. Because the management of the biosolids program is the responsibility of the Office of Wastewater Management (OWM) in the Office of Water (OW), Environmental Protection Agency (EPA), and the Clean Water Act requires EPA to periodically review the regulations for the purpose of identifying additional toxic pollutants and promulgating regulations. The OWM designated Region 5, headquartered in Chicago, Illinois, to conduct this survey to assess the existing concentration of these pollutants in biosolids generated by POTWs. The specific purpose of this survey is to evaluate the need to develop regulations, policies, and guidance to control these pollutants in the environment. The USEPA will contract the sampling, chemical analysis of biosolids, and interpretation and reporting of analytical data to a contract laboratory selected through an open bidding process. The contract laboratory will be collecting representative grab samples of biosolids at suitable locations at the selected POTWs, and will measure the analytically detectable concentrations of the congeners of PCBs, dioxins, and furans using EPA Methods No. 1668 for PCBs, and Method No. 1613 for dioxins and furans.
