DEPARTMENT OF JUSTICE

Office of Juvenile Justice and Delinquency Prevention

[OJP (OJJDP)—1276]

Program Announcement for Training and Technical Assistance for National Innovations To Reduce Disproportionate Minority Confinement (The Deborah Ann Wysinger Memorial Program)

AGENCY: Office of Justice Programs, Office of Juvenile Justice and Delinquency Prevention, Justice.

ACTION: Notice of solicitation.

SUMMARY: The Office of Juvenile Justice and Delinquency Prevention (OJJDP) is requesting applications for Training and Technical Assistance for National Innovations to Reduce Disproportionate Minority Confinement. The purpose of the training and technical assistance is to assist States as they plan, implement, and monitor their disproportionate minority confinement (DMC) initiatives. Addressing DMC is the fourth core protection in the State plan requirements under the Formula Grants program established in Part B of the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended (Pub. L. 93-415; 42 U.S.C. 5663). Section 223(a)(23) provides that States participating in the Formula Grants program must take steps to address the issue of DMC if it is found to exist in the State. OJJDP is issuing this competitive solicitation for innovative proposals to implement a national planning, training, technical assistance, and information dissemination initiative to assist States and local jurisdictions to address DMC as required by the JJDP Act.

DATES: Applications must be received by August 7, 2000.

ADDRESSES: Interested applicants can obtain an application kit from the

Juvenile Justice Clearinghouse at 800-638-8736. The application kit is also available at OJJDP's Web site at www.ojjdp.ncjrs.org/grants/about.html#kit. (See "Format" and "Delivery Instructions" later in this announcement for instructions on application standards and the address to which applications must be sent.)

SUPPLEMENTARY INFORMATION:

Purpose

The purpose of this program is to provide States, territories, and the District of Columbia with training and technical assistance support to address disproportionate minority confinement (DMC), the subject of the fourth core protection of the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended. The other core protections are deinstitutionalization of status offenders, removal of juveniles from adult jails and lockups, and sight and sound separation of juveniles from adult offenders in secure institutions.

Background

The 1992 amendments to the Juvenile Justice and Delinquency Prevention (JJDP) Act of 1974, as amended, required States to take steps to address DMC as a condition for receipt of 25 percent of the State's Formula Grants program allocation, thus creating the fourth core protection of the JJDP Act (Section 223(a)(23)). The Office of Juvenile Justice and Delinquency Prevention (OJJDP) issued regulations (28 CFR 31.303 (j)) requiring States participating in the Formula Grants program to collect and analyze data on DMC. States participating in the Formula Grants program address the DMC issue in three phases: identifying the extent to which DMC exists, assessing the reasons for DMC, and developing intervention plans to address those identified reasons. An OJJDP grant program was developed in 1991 to demonstrate model approaches in five competitively selected pilot States (Arizona, Florida, Iowa, North Carolina, and Oregon). Funds were also awarded to a national contractor to provide technical assistance to the pilot States and other States, to evaluate their efforts, and to share relevant information nationwide. By 1995, awards had been made to support 12 demonstration projects to test innovative interventions designed by States and local communities to address DMC.
