(b) Denial by the Commissioner, Deputy Commissioner, Executive Associate Commissioner Field Operations, regional director, or district director of a request for a stay is not appealable, but such denial shall not preclude an immigration judge or the Board from granting a stay in connection with a motion to reopen or a motion to reconsider as provided in 8 CFR part 3.

(c) The Service shall take all reasonable steps to comply with a stay granted by an immigration judge or the Board. Other Consumer Protection (OCP) Activities—Reopening of Comment Period

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Proposed rule; reopening of comment period.

SUMMARY: The Food Safety and Inspection Service (FSIS) is reopening the comment period for the advanced notice of proposed rulemaking "Other Consumer Protection (OCP) Activities" for 60 days. This action responds to a request to allow additional time for comments.

All comments received in response to this notice will be considered part of the public record and will be available for viewing in the FSIS Docket Room between 8:30 a.m. and

SUPPLEMENTARY INFORMATION: On March 17, 2000, FSIS published the advanced notice of proposed rulemaking (ANPR) "Other Consumer Protection (OCP) Activities" (65 FR 14486). FSIS published this ANPR to request comments on the need and desirability of revising its approach to verifying that meat and poultry products are not misbranded, economically adulterated, or otherwise unacceptable for reasons that do not necessarily raise food safety or public health concerns. In the ANPR, FSIS referred to these program activities as "other consumer protection" (OCP) activities. The ANPR defined and described FSIS' OCP activities and discussed the Agency's need for revised regulations and verification and enforcement procedures.

FSIS has received a request to extend the comment period for an additional 180 days because of the large scope of the ANPR. FSIS agrees that the ANPR addresses many issues and wants to receive as much input as possible. However, because this is an ANPR, and any further actions by the Agency will be issued in a notice and comment proposed rulemaking, FSIS is reopening the comment period for 60 days. After the comment period closes, FSIS, intends to proceed with development of various OCP notice and comment proposed rulemakings.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, in an effort to better ensure that minorities, women, and persons with disabilities are aware of this notice, FSIS will announce it and provide copies of this **Federal Register** publication in the FSIS Constituent Update. FSIS provides a weekly FSIS Constituent Update, which is communicated via fax to over 300 organizations and individuals. In addition, the update is available on line through the FSIS web page located at <http://www.fsis.usda.gov>. The update is used to provide information regarding FSIS policies, procedures, regulations, **Federal Register** notices, FSIS public meetings, recalls, and any other types of information that could affect or would be of interest to our constituents/

stakeholders. SUPPLEMENTARY INFORMATION:

Background

On May 3, 2000, the NRC docketed an April 20, 2000, letter from Thomas B. Cochran, Ph.D., Director, Nuclear Program, Wade Green Chair for Nuclear Policy, NRDC, to the Honorable Richard A. Meserve, Chairman, U.S. Nuclear Regulatory Commission, as a petition for rulemaking under 10 CFR 2.802. In this letter, Dr. Cochran requested that the NRC issue regulations under the provisions of 10 CFR 2.206 that would require an individual to report illegal payments to regulators if the individual has knowledge or evidence of the illegal payments. The petitioner requests that an individual who fails to make such a report not be issued a license or allowed to retain a license. The § 2.206 process is applicable to actions that would suspend, modify, or revoke a license. Requests to add, amend, or remove a regulation are processed under 10 CFR 2.802. Therefore, Dr. Cochran's request was docketed under the procedures applicable to petitions for rulemaking contained in § 2.802.

The Petition

The petitioner references a letter from the NRC to an individual indicating that the NRC will take no further action on its Demand for Information dated July 12, 1999 (EA 99-180). The Demand for Information sought information that would allow the NRC to determine whether it needed to take any action concerning the individual or the licensee for which the individual was president. The matter in question concerned payments made by the individual to an official of an Agreement State regulatory body that was responsible for issuing licensees

and overseeing activities related to the individual's license.

The petitioner characterizes this letter as indicating the Commission's apparent satisfaction with mere assurances from the individual that the individual will act with the candor and integrity that is required of NRC licensees despite what the petitioner states are the individual's unlawful actions and failure to notify Federal or State officials of the potentially criminal activities of a regulator.

The petitioner states that the NRC's action does little to quell his concerns about safeguarding the nuclear regulatory process to prevent a recurrence of this type of action. The petitioner asserts that the only reasonable response to the admitted participation of the individual in a blatantly corrupt scheme with a top nuclear official in an Agreement State would have been to bar the individual from any further involvement in NRC-licensed activities for life. The petitioner also states that the least the NRC could have done following what the petitioner characterized as a protracted process would be to provide a fully reasoned justification for its decision to allow the individual to return to his position in running a licensed company.

The Requested Action

The petitioner is concerned that the reinstatement of the individual establishes an extremely dangerous precedent from a regulatory perspective. Therefore, the petitioner requests that the NRC promulgate the following as an NRC regulation:

No licensee (sic) shall be issued to, or retained by, any person who, or any organization whose principal owner, officer, or senior manager, has engaged in, or has knowledge or evidence pertaining to, but fails to promptly report that knowledge or evidence to the NRC, bribery of, or extortion by, any Federal, State or other regulatory official involved in the review or approval of, or continuing oversight over, the license activities, or license applications; or any person who, or any organization whose principal owner, officer, or senior manager, has acted in any manner that flagrantly undermines the integrity of the regulatory process of the NRC or that of an Agreement State.

Dated at Rockville, Maryland, this 23rd day of June, 2000.

For the Nuclear Regulatory Commission.

Annette Vietti-Cook,

Secretary of the Commission.

[Docket No. 2000-NM-202-AD]

RIN 2120-AA64

Airworthiness Directives; Short Brothers Model SD3-60 SHERPA Series Airplanes

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This document proposes the superseding of an existing airworthiness directive (AD), applicable to all Short Brothers Model SD3-60 SHERPA series airplanes, that currently requires a one-time visual inspection to determine the part number of the power control cable assemblies and pulleys of the engine controls; and replacement of the power control cable assemblies and pulleys (as applicable) with new parts, if necessary. This action would require accomplishment of the inspection and replacement in accordance with revised procedures. This proposal is prompted by issuance of mandatory continuing airworthiness information by a foreign civil airworthiness authority. The actions specified by the proposed AD are intended to prevent breakage of the power control cable assemblies due to the inflexible construction of the cable, which could result in loss of engine power and consequent reduced controllability of the airplane.

DATES: Comments must be received by July 31, 2000.

ADDRESSES: Submit comments in triplicate to the Federal Aviation Administration (FAA), Transport Airplane Directorate, ANM-114, Attention: Rules Docket No. 2000-NM-202-AD, 1601 Lind Avenue, SW., Renton, Washington 98055-4056.
