October 1, 2000 for FY 2001 grants.

### SUPPLEMENTARY INFORMATION:

#### Background

In FY 2000, we consolidated funding  
for certain non-disaster programs into  
the Emergency Management  
Performance Grant (EMPG). Programs  
consolidated include State and Local  
Assistance (SLA); Superfund  
Amendments and Reauthorization Act  
(SARA) Title III; Mitigation Assistance  
Program (MAP); Disaster Preparedness  
Improvement Grants (DPIG); Pre-  
disaster Mitigation (Project Impact) to  
States; and Terrorism Consequence  
Management Preparedness Assistance  
(TCMPA).

We offered the grants in FY 2000 at  
composite cost shares based on the cost  
share policies associated with the  
programs consolidated into the EMPG.  
The composite cost shares for the non-  
terrorism portion of the EMPG ranged  
from approximately 51 percent Federal/  
49 percent State to approximately 54  
percent Federal/46 percent State. The  
TCMPA portion was 100 percent  
federally-funded.

The composite cost shares were  
dependent upon which of the six  
programs a State participated in before  
consolidation, and for some programs

how many years a State participated.  
The result of this varied participation by  
States is that the consolidation process  
has the potential to lock-in an uneven  
distribution of cost-share requirements.

### Phase-In Procedure

We used the composite cost shares  
during the transition from the multiple  
programs to the unified EMPG. To  
complete the transition, and in order to  
bring about a fair and reasonable  
distribution of the funds for emergency  
management, we are phasing in  
implementation of a Federal cost share  
of 50 percent that will apply equally to  
all States for the non-TCMPA portion of  
the EMPG. This will be more equitable  
and easier to manage than previously,  
both at the Federal and State levels.  
States will have a simpler and more  
predictable means of planning for their  
share of the costs of emergency  
management than now, which will help  
their long-term budgeting process. The  
complete phase-in of the standard cost  
share will take approximately four  
years, with some States arriving at the  
50 percent level each year.

The TCMPA portion will continue to  
be 100 percent federally-funded.

### FY 2001 Procedure

For FY 2001 grants, we will pay a cost  
share one percentage point less than the  
composite share that we paid in 2000.  
For example, if a particular State's  
EMPG was shared in FY 2000 at 52  
percent Federal/48 percent State, in FY  
2001 the grant will be shared at 51  
percent Federal/49 percent State. Such  
phasing in of the standard cost share  
will ease the financial burden to the  
State (by avoiding too large an  
adjustment in any one year) and will  
enable it to budget better for outyear  
cost shares.
