Public Agency: City of Lynchburg, Virginia.

Application Number: 00-02-C-00-LYH.

Application Type: Impose and use a PFC.

PFC Level: \$3.00.

Total PFC Revenue Approved in This Decision: \$832,756.

Earliest Charge Effective Date: September 1, 2000.

Estimated Charge Expiration Date: February 1, 2002.

Class of Air Carriers Not Required To Collect PFC's: Air taxi operators filing FAA Form 1800-31.

Determination: Approved. Based on information contained in the public agency's application, the FAA has

determined that the approved class accounts for less than 1 percent of the total annual enplanements at Lynchburg Regional Airport.

Brief Description of Projects Approved for Collection and Use:

PFC formulation and annual administrative costs.
Construct airport service road.
Overlay runway 3/21.
Acquire land runway 21 runway protection zone.
Overlay general aviation apron.

Brief Description of Project Disapproved for Collection and Use: Relocate State Route 758 to recover full extended runway safety area to runway 21 (design only).

Determination: Disapproved. Two parcels of land must be acquired by the public agency in order to successfully accomplish the relocation of the highway. One of the necessary parcels included a life-estate clause in the purchase agreement. Therefore, the FAA has no reasonable expectation that the public agency will be able to acquire the parcel and, thus, begin the road relocation within the 2-year timeframe required by § 158.33(a)(1) and has disapproved the project.

Decision Date: June 16, 2000.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration and Federal Transit Administration

Environmental Impact Statement; King County, Washington

AGENCIES: Federal Highway Administration (FHWA) and Federal Transit Administration (FTA), Department of Transportation.

ACTION: Notice of intent.

SUMMARY: The FHWA and FTA, in cooperation with Sound Transit (ST) and Washington State Department of Transportation (WSDOT) are issuing this notice to advise the public, affected Indian tribes and agencies that an environmental impact statement (EIS) will be prepared for improvements within the SR 520 corridor from Seattle to Redmond in King County, Washington. High capacity transit (HCT) alternatives across Lake Washington, including the SR 520 and I-90 corridors, will also be considered at a programmatic level.

FOR FURTHER INFORMATION CONTACT:

James A. Leonard, Federal Highway Administration, 711 South Capitol Way, Suite 501, Olympia, Washington 98501-1284, Telephone: (360) 753-9408; Jennifer Bowman, Federal Transit Administration, 915 2nd Avenue, Seattle, Washington 98174, Telephone: (206) 220-7954; Rob Fellows,

Washington State Department of Transportation, Office of Urban Mobility, 401 Second Avenue South, Suite 301, Seattle, Washington 98104-2887, Telephone (206) 464-6234; Barb Gilliland, Sound Transit, 401 S. Jackson Street, Seattle, Washington 98104-2826, Telephone (206) 398-5051; or see website at <http://www.wsdot.wa.gov/translake>

SUPPLEMENTARY INFORMATION: The purpose of the proposed action is to improve mobility for people and goods across Lake Washington within the SR 520 corridor from Seattle to Redmond to address the following needs in the corridor. Land uses and transportation systems are not integrated in their planning and implementation; the transportation system suffers from extensive congestion; reliability and safety of the system are impaired; and neighborhoods, business centers and the environment are negatively impacted by high traffic volumes.

Alternatives under initial consideration include: (1) No action; (2) maintain SR 520 as four lanes, but improve access, operation, and safety; (3) add one HOV lane in each direction; (4) add one HOV lane and high-capacity transit in each direction; (5) add one HOV lane and one general purpose lane in each direction; and (6) add one HOV lane, high-capacity transit, and one general purpose lane in each direction. Each "build" alternative will also include Transportation System Management (TSM) measures, Transportation Demand Management (TDM) measures, bicycle and pedestrian facilities, and environmental and neighborhood mitigation and enhancement measures. HCT alternatives across Lake Washington,

including the SR 520 and I-90 corridors, will also be considered at a programmatic level.

Letters describing the proposed action and soliciting comments on the scope of the EIS will be sent to appropriate Federal, State, and local agencies, affected Indian tribes, and to organizations and citizens who have previously expressed or are known to have interest in this proposal. A public hearing will be held and notice will be given of the time and place of the hearing. A series of agency and public scoping meetings are scheduled to be held during July 2000. (See below for details.)

Each public scoping meeting will consist of an informal open house setting from 5-7 p.m. and a formal meeting format beginning at 7 p.m. The formal meeting will begin with a short presentation, after which, comments will be received in the group forum. A court reporter will be available to record oral comments in an informal one-on-one setting, for the open house, and will also record the formal meeting and comments from individuals in the group setting.

Comments may be made at one of the following public scoping meetings.

- Tuesday, July 18, 2000 at the Museum of History and Industry, 2700 24th Ave. East, Seattle, WA
- Wednesday, July 19, 2000 at Medina Elementary School, 8001 NE 8th Street, Medina, WA
- Thursday, July 20, 2000 at North Bellevue Community/Senior Center, 4063 148th Avenue NE, Bellevue, WA

In addition, a scoping meeting for governmental agencies and tribes will be held on July 12, 2000 at 9 a.m. at the Museum of History and Industry, 2700 24th Ave. East, Seattle, WA. A second
