SUPPLEMENTARY INFORMATION:

I. Background

The collection of this information is made necessary to provide a vehicle to make allotments available to students who both want one and have a qualifying dependent.

The main purpose of the form is to obtain information from the enrollee as to the allottee designation and to obtain

documentary evidence to support the enrollee's claim for qualification for the allotment. It is completed by either the Job Corps screener or the Center Director's staff. It is done by personal interview. This is a basic operating document, required by the Department of Labor to initiate an allotment.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

There is a continuing need to collect this information from respondents in order to make allotments available to new students and to make changes to existing allotments that current students have in place.

The Department of Labor handles all student payments. If this information was not collected, ETA could not comply with the regulations and the students could not receive an allotment.
