Withdrawal of Direct Final Rule on Operating Permit Program; State of Montana

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of Direct Final Rule.

SUMMARY: Due to adverse comments, EPA is withdrawing the direct final rule published in the **Federal Register** on June 13, 2000 (65 FR 37049) promulgating full approval of the operating permit program submitted by the State of Montana for the purpose of complying with federal requirements which mandate that states develop, and submit to EPA, programs for issuing operating permits to all major stationary sources, and to certain other sources. As stated in the **Federal Register** document if EPA receives adverse comment by July 13, 2000, EPA will publish a timely withdrawal of the direct final rule and inform the public that the rule will not take effect on August 14, 2000. Therefore, due to receiving the final rule (which will delay the effective date of the Montana operating permit program) and will address all public comments received in a subsequent final rule based on the proposed rule also published on June 13, 2000 (65 FR 37091). EPA will not institute a second comment period on this document.

DATES: The direct final rule, published on June 13, 2000 (65 FR 37049), is withdrawn as of August 8, 2000.

FOR FURTHER INFORMATION CONTACT: Patricia Reisbeck, Air and Radiation Program 8P-AR, Environmental Protection Agency, Region 8, 999 18th Street, Suite 500, Denver, Colorado 80202, (303) 312-6435.

SUPPLEMENTARY INFORMATION: On June 13, 2000, EPA published a direct final rule (65 FR 37049) and a parallel proposal (65 FR 37091) to grant full approval of 40 CFR part 70 Montana operating permit program. The purpose of this action was to grant full authority to the State of Montana to meet the federal Clean Air Act directive that states develop, and submit to EPA, programs for issuing operating permits to all major stationary sources and to certain other sources within the states' jurisdiction.

The EPA stated in the direct final rule (65 FR 37049) that if adverse comments were received by July 13, 2000, EPA would publish a notice to withdraw the direct final rule before its effective date of August 14, 2000. The EPA received an adverse comment on the direct final rule and, therefore, is withdrawing the direct final rulemaking action. The adverse commenter stated concern that the program would not adequately protect public health and the environment. The EPA will address the specific comments in a subsequent final action.

Dated: August 1, 2000.

Acting Regional Administrator, VIII.

Federal Management Regulation

AGENCY: Office of Governmentwide Policy, GSA.

ACTION: Notice of regulatory development.

SUMMARY: This document is an update on the continuing development of the Federal Management Regulation (FMR). Originally named the Federal Property and Administrative Services Regulation, parts of the FMR are now in effect.

FOR FURTHER INFORMATION CONTACT: Rod Lantier, Director, Regulatory Secretariat, Federal Acquisition Policy Division, (202) 501-2647, e-mail Rodney.Lantier@gsa.gov.

SUPPLEMENTARY INFORMATION: The FMR is the successor regulation to the Federal Property Management Regulations (FPMR), both of which the Administrator of General Services is authorized to issue to govern and guide Federal agencies. The General Services Administration (GSA) and other executive agency officials use these materials to regulate and prescribe policies, procedures, and delegations of authority pertaining to the management of property and other programs and activities administered by GSA. An exception pertains to the procurement and contract matters covered in the Federal Acquisition Regulation.

Presented in a plain language question and answer format, the FMR contains updated regulatory policies originally found in the FPMR. However, it does not contain FPMR material describing how to do business with GSA. "How to" materials will become available in customer service guides, handbooks, brochures and on other websites provided by GSA.

The contents of the FPMR are moving to the FMR according to subject area as each is rewritten. Until the migration to

the FMR is complete, agencies must reference both the FMR and the FPMR. In an effort to make this as convenient as possible for users, GSA issues all new FMR materials as changes to the FPMR in a looseleaf format. In this manner, both regulations are kept up to date throughout the transition.

Additionally, GSA has established an FMR/FPMR website. The url for this site is:

<http://policyworks.gov/org/main/mv/fmr/index.htm>

Although the site remains under construction, FMR content is up to date. The site will soon include the FPMR as it existed on November 1, 1999, before the first migration of its content into the FMR. This full version of the FPMR will be archived for agencies' future reference. GSA will also post a version of the FPMR that is updated as its content is migrated into the FMR. Thus, there will be Internet access to the FMR and any portions of the FPMR that remain in effect.

Finally, the FMR appears in Chapter 102 of Title 41. Once conversion to the FMR is complete, the FPMR, which now appears in Chapter 101 of Title 41, will be reserved in its entirety.

Dated: August 1, 2000.

Associate Administrator for Governmentwide Policy.
