

**DEPARTMENT OF DEFENSE****Department of the Army****Availability for Non-Exclusive, Exclusive, or Partially Exclusive Licensing of U.S. Patent Application Concerning Protective Monoclonal Antibody Against Botulinum Neurotoxin Serotype F**

**AGENCY:** U.S. Army Medical Research and Materiel Command, DoD.

**ACTION:** Notice.

**SUMMARY:** In accordance with 37 CFR 404.6, announcement is made of the availability for licensing of U.S. Patent Application Serial Number 08/504,969 entitled "Protective Monoclonal Antibody Against Botulinum Neurotoxin Serotype F", filed July 20, 1995. This patent has been assigned to the United States Government as represented by the Secretary of the Army.

**ADDRESSES:** Commander, U.S. Army Medical Research and Materiel Command, ATTN: Command Judge Advocate, MCMR-JA, 504 Scott Street, Fort Detrick, Frederick, Maryland 21702-5012.

**FOR FURTHER INFORMATION CONTACT:** For patent issues, Ms. Elizabeth Arwine, Patent Attorney, (301) 619-7808. For licensing issues, Paul Mele, Office of Research & Technology Assessment, (301) 619-6664. Both at telefax (301) 619-5034.

**SUPPLEMENTARY INFORMATION:** The subject application invention relates to a monoclonal antibody protective against botulinum neurotoxin serotype F, and to methods of preparation and use thereof.

Gregory D. Showalter,  
*Army Federal Register Liaison Officer.*

**BILLING CODE 3710-08-U**

**DEPARTMENT OF DEFENSE****Department of the Army****Availability for Non-Exclusive, Exclusive, or Partially Exclusive Licensing of U.S. Patent Application Concerning Self-Piercing Pulse Oximeter Sensor Assembly**

**AGENCY:** U.S. Army Medical Research and Materiel Command, DoD.

**ACTION:** Notice.

**SUMMARY:** In accordance with 37 CFR 404.6, announcement is made of the availability for licensing of U.S. Patent Application Serial Number 09/389,347

entitled "Self-Piercing Pulse Oximeter Sensor Assembly", filed September 3, 1999. Foreign rights are also available. This patent application has been assigned to the United States Government as represented by the Secretary of the Army.

**ADDRESSES:** Commander, U.S. Army Medical Research and Materiel Command, ATTN: Command Judge Advocate, MCMR-JA, 504 Scott Street, Fort Detrick, Frederick, Maryland 21702-5012.

**FOR FURTHER INFORMATION CONTACT:** For patent issues, Ms. Elizabeth Arwine, Patent Attorney, (301) 619-7808. For licensing issues, Paul Mele, Office of Research & Technology Assessment, (301) 619-6664. Both at telefax (301) 619-5034.

**SUPPLEMENTARY INFORMATION:** A self-piercing pulse oximeter sensor for attachment to a subject. The device includes a flexible pulse oximeter sensor, an earring post, and a grommet. The earring post may be used as a piercing device if there is not a pierced body part suitable for attaching the pulse oximeter sensor to the body. Otherwise the earring post may be slid into the pierced hole. In either case, the tip of the earring post engages a grommet once passing through the body part. Thus, the pulse oximeter sensor functions in a transillumination mode by transmitting light through the pierced body part.

**DEPARTMENT OF DEFENSE****Department of the Army****Availability for Non-Exclusive, Exclusive, or Partially Exclusive Licensing of U.S. Patent Application Concerning Treatment or Prophylaxis of Retinal Pathology and Spinal Cord Injury**

**AGENCY:** U.S. Army Medical Research and Materiel Command, DoD.

**ACTION:** Notice.

**SUMMARY:** In accordance with 37 CFR 404.6, announcement is made of the availability for licensing of U.S. Patent Application Serial Number 09/133,805 entitled "Treatment or Prophylaxis of Retinal Pathology and Spinal Cord Injury", filed August 13, 1998. Foreign rights are also available. This patent has been assigned to the United States

Government as represented by the Secretary of the Army.

**ADDRESSES:** Commander, U.S. Army Medical Research and Materiel Command, ATTN: Command Judge Advocate, MCMR-JA, 504 Scott Street, Fort Detrick, Frederick, Maryland 21702-5012.

**FOR FURTHER INFORMATION CONTACT:** For patent issues, Ms. Elizabeth Arwine, Patent Attorney, (301) 619-7808. For licensing issues, Paul Mele, Office of Research & Technology Assessment, (301) 619-6664. Both at telefax (301) 619-5034.

**SUPPLEMENTARY INFORMATION:** The invention is related to use of PMPA,  $\alpha$ -NAAG and  $\beta$ -NAAG to prevent and treat conditions arising from exposure of neuronal tissue to toxins, injury, ischemia and hypoxia. Target tissues include the brain, spinal cord and retina.

**BILLING CODE 3710-08-P**

**DEPARTMENT OF DEFENSE****Department of the Army; Corps of Engineers****Notice of Intent To Prepare Draft Supplement No. 1 to the Final Environmental Impact Statement [FEIS] for Operation and Maintenance, Lake Greeson, Lake Ouachita, and DeGray Lake, Arkansas**

**AGENCY:** U.S. Army Corps of Engineers, Vicksburg District, DOD.

**ACTION:** Notice of intent.

**SUMMARY:** The purpose of the proposed action is to evaluate the environmental impacts of the U.S. Army Corps of Engineers proposed continued operation and maintenance activities at Lake Greeson, Lake Ouachita, and DeGray Lake, Arkansas.

**FOR FURTHER INFORMATION CONTACT:** Mr. Wendell King (telephone (601) 631-5967), CEMVK-PP-PQ, 4155 Clay Street, Vicksburg, Mississippi 39183-3435.

**SUPPLEMENTARY INFORMATION:** Lake Greeson, Lake Ouachita, and DeGray Lake are part of a comprehensive plan for flood control, navigation, and hydroelectric power production for the Ouachita River Basin. Lake Greeson is located on the Little Missouri River in Pike County, Arkansas, 6 miles north of Murfreesboro, and 64 miles southwest of Hot Springs. Lake Ouachita is located on the Ouachita River in Garland and

Montgomery Counties, Arkansas, 13 miles west of Hot Springs. DeGray Lake is located on the Caddo River in Clark and Hot Spring Counties, Arkansas, 8 miles north of Arkadelphia.

Lake Greeson was authorized by the Flood Control Act of 18 August 1941, Public Law 228, 77th Congress, 1st Session, as amended by the Flood Control Act of 22 December 1944. It is now officially named "Narrows Dam-Lake Greeson." Lake Ouachita was authorized by the Flood Control Act of 22 December 1944, Public Law 534, 78th Congress, Chapter 655, 2nd Session, House Report No. 4485, which adopted the plan as set forth in House Document No. 647. It is now officially "Blakely Mountain Dam-Lake Ouachita." DeGray Lake was authorized by Congress in the Rivers and Harbors Act of 1950.

The authorized purposes of Lake Greeson and Lake Ouachita are flood control and hydroelectric power production. This authority was amended by Section 4 of the Flood Control Act of 1944 to include public recreation on these projects. Authority to construct, maintain, and operate public parks and recreational facilities at water resource development projects under the control of the Department of the Army was granted under section 207 of the Flood Control Act of 1962. The authorized purposes of DeGray Lake are flood control, hydroelectric power, water supply, navigation, and recreation. Lake Greeson became operational in 1950; Lake Ouachita became operational in 1953; and DeGray Lake was placed into operation in 1972.

The FEIS for Operation and Maintenance, Lake Greeson, lake Ouachita, and DeGray Lake, Arkansas, was completed by the Corps in September 1977. The proposed action will evaluate the environmental impacts of Corps continued conduct of operation and maintenance activities in support of the authorized project purposes for the lakes.

The significant issues tentatively identified for evaluation of the environmental impacts of operation and maintenance activities include (1) impacts of flood control storage, (2) impacts of hydroelectric generation, (3) impacts to water supply storage, and (4) impacts to resource management, including concession expansions.

The National Environmental Policy Act (40 CFR part 1501.7) requires all Federal agencies preparing EIS's to conduct a process termed "scoping." This scoping process determines the issues to be addressed and identifies the significant issues related to a proposed action. To accomplish this, public

scoping meetings are tentatively scheduled to be held in Arkansas in September 2000. The Environmental Protection Agency, U.S. Fish and Wildlife Service, Natural Resources Conservation Service, Arkansas Department of Environmental Quality, and Arkansas Game and Fish Commission will be invited to become cooperating agencies. All interested agencies, groups, tribes, and individuals will be sent copies of the Draft Supplemental EIS and FEIS.

The Draft Supplemental EIS is scheduled to be completed in October 2001.

**Robert Crear,**

*Colonel, Corps of Engineers, District Engineer.*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP00-438-000]

#### Columbia Gas Transmission Corporation; Filing

August 18, 2000.

Take notice that on August 14, 2000, Columbia Gas Transmission Corporation (Columbia) filed an application requesting permission under NGA Section 7(b) to abandon by sale 3.54 BCF of base gas located in Columbia's Storage system. The application may be viewed on the web at [www.ferc.fed.us/online/rims.htm](http://www.ferc.fed.us/online/rims.htm). Call (202) 208-2222 for assistance.

It is stated that operational efficiencies within various Storage Fields have reduced Columbia's need to maintain the historic levels of base gas. The disposition of proceeds from the proposed sale of the base gas will be made pursuant to Section C, of Article IV, of Stipulation II of the Settlement in Docket No. RP95-408 Columbia Gas Transmission Corp., 79 FERC Paragraph 61,044 (1997). This settlement defines future additional sales of base gas no longer needed by Columbia as a result of more efficient operation of its storage fields. Columbia will comply with the annual reporting requirements provided for in Section D of Article IV.

Any person desiring to be heard or to protest said filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 or 214 of the Commission's Rules of Practice and Procedure (18 CFR Section 385.211 or Section 385.214). All such motions to

intervene or protest should be filed on or before September 8, 2000. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

**David P. Boergers,**

*Secretary.*

## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. CP00-434-000]

#### Columbia Gulf Transmission Company; Application

August 18, 2000.

Take notice that on August 9, 2000, Columbia Gulf Transmission Company (Columbia Gulf), 2603 Augusta, Suite 125, Houston, Texas 77057-5637, filed in Docket No. CP00-434-000 an application pursuant to Sections 7(c) and 7(b) of the Natural Gas Act for permission and approval for Columbia Gulf to construct and operate certain replacement natural gas facilities and to abandon the facilities being replaced due to the age and condition of the facilities, located in Powell County, Kentucky, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Columbia Gulf proposes to construct and operate one 14,470 horsepower (HP) compressor unit and appurtenances and abandon one 12,050 HP compressor unit and appurtenances, located in Powell County, Kentucky.

Columbia Gulf states that the unit proposed for replacement, designated as Columbia Gulf's Unit 105, is part of their Stanton Compressor Station, which currently consists of six compressor units. Columbia Gulf asserts that the unit is a Pratt and Whitney GG3C-1 gas turbine unit with a rating of 12,050 HP, constructed and placed in service in 1964, under the authority granted in Docket No. CP64-1.

Columbia Gulf states that due to the age of the unit, replacement parts are not readily available, making repairs and maintenance difficult. Columbia
