Notice of Availability of Environmental Assessment (EA)/Finding of No Significant Impact (FONSI) for a Proposed Plan Amendment to the Pony Express Resource Management Plan (RMP)

AGENCY: Bureau of Land Management, Interior.

SUMMARY: Pursuant to section 102(2)(c) of the National Environmental Policy Act of 1969, the Bureau of Land Management (BLM), Salt Lake Field Office, Utah announces the availability of an EA/FONSI for a plan amendment to the Pony Express RMP. On February 3, 1997, as amended on August 10, 1999, the Salt Lake Field Office published in the **Federal Register** a notice of intent to conduct a plan amendment to the RMP.

Under the Bureau Planning System, Special Recreation Management Areas (SRMA) are designated where significant public recreation issues or management concerns occur. Special or more intensive types of management are typically needed. Detailed activity planning, including recreation, is required in these areas and greater managerial investment is likely. This amendment will accomplish two main objectives: One, designate Fivemile Pass a SRMA, to facilitate the planning process to address recreation use and management issues, needs, and priorities; and two, establish Off-Road Vehicle designations. Designation of a SRMA initiates the activity level planning process, including the development of an activity plan. This activity plan will be developed as a Coordinated Resource Management Plan and address site specific recreation development, maintenance, and operational details such as specific route identification, camping areas, staging areas, facilities (loading ramps, outhouses, weed spray stations, etc.), special stipulations for organized events, use limits, and specific regulations for the area as well as site specific management prescriptions for other resources in the area. The SRMA would be managed primarily for recreational uses, but would remain a multiple-use management area. The existing RMP would be updated for all uses incorporating changes in land use patterns.

DATES: The proposed plan amendment may be protested. The protest period will commence with the date of

publication of this notice. Protests must be submitted on or before September 29, 2000.

ADDRESSES: Protests must be addressed to the Director (WO-210), Bureau of Land Management, Attn.: Brenda Williams, Resource Planning Team, 1849 C Street, NW, Washington, D.C. 20240, within 30 days after the date of publication of this notice for the proposed planning amendment.

FOR FURTHER INFORMATION CONTACT: For information on the BLM plan amendment contact Britta Laub, Outdoor Recreation Planner, telephone (801) 977-4389. Existing planning documents and information are available at the above Utah BLM Salt Lake Field Office address.

SUPPLEMENTARY INFORMATION: Any person who participated in the planning process and has an interest which is or may be adversely affected by the Proposed Plan Amendment may protest to the Director of the Bureau of Land Management. The protest must be in writing and filed within 30 days of the date of publication of this Notice of Availability in the **Federal Register**. The protest must be specific and contain the following information:

- The name, mailing address, telephone number and interest of the person filing the protest;
- A statement of the issue(s) being protested;
- A statement of the part(s) of the proposed amendment being protested;
- A copy of all documents addressing the issue(s) that were submitted by the protestor during the planning process; and
- A concise statement explaining why the BLM State Director's proposed decision is believed to be in error.

In the absence of timely objections, this proposal shall become the final determination of the Department of the Interior.

Bob Bennett,

Acting State Director.

Notice of Intent To (1) Prepare a Revision to the Farmington Resource Management Plan and (2) Prepare an Amendment (Oil and Gas) to the Rio Puerco Resource Management Plan. Call for Coal Information and Invitation To Participate in Identification of Issues and Planning Criteria

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent and call for coal information.

SUMMARY: The Bureau of Land Management (BLM), Farmington Field Office, New Mexico, is initiating the preparation of a Resource Management Plan Revision (RMP Revision) and Amendment which will include an Environmental Impact Statement (EIS). The RMP Revision will establish land use management policy for multiple resource uses on approximately 1.5 million acres of public land and 2.26 million acres of federal mineral resources in the Farmington Field Office. The RMP will estimate reasonable foreseeable development (RFD) of federal oil and gas mineral resources in the San Juan Basin portions of the Albuquerque and Farmington Field Offices. The Code of Federal Regulations, Title 43, Subpart 1600, will be followed for this planning effort. The

public is invited to participate in the planning process, beginning with the identification of issues and planning criteria for the RMP Revision.

This notice also solicits coal resource information for federal minerals located adjacent to existing mines pursuant to 43 CFR 3420.1-2 for inclusion in the RMP Revision. Coal companies, state and local governments, and the general public is encouraged to submit information to the BLM to assist in the determinations of coal development potential and possible conflicts with other resources. If this information is determined to indicate development potential, further considerations for leasing will be given.

DATES: Comments relating to the identification of issues, planning criteria and information submitted for the Call for Coal Information will be accepted until October 16, 2000.

ADDRESSES: Send comments to: BLM, Farmington Field Office, RMP Revision, 1235 La Plata Highway, Suite A, Farmington, NM 87401.

FOR FURTHER INFORMATION CONTACT: Steve Henke, Project Manager, Albuquerque Field Office, NM, (505) 761-8935.

SUPPLEMENTARY INFORMATION: The planning area will include the public land (Farmington Field Office) and federal mineral ownership (Albuquerque and Farmington Field Offices) in all or part of McKinley, Rio Arriba, San Juan, and Sandoval Counties. This encompasses approximately 1.5 million acres of BLM-administered surface and 2.26 million acres of federal minerals under federal, state, or private surface in the four-county area in the Farmington Field Office. The planning area also includes the federal minerals located in the San Juan Basin portion of the Albuquerque Field Office (McKinley, Rio Arriba, and Sandoval Counties).

Anticipated issues to be addressed during development of the RMP Revision include, but are not limited to, the following: (1) Which public lands could be transferred to other than BLM-administration and which lands would be beneficial to BLM programs if acquired; (2) which public lands should be designated as open, restricted or closed to motorized vehicle access; (3) which public lands will be considered for special management designation; (4) which federal minerals should be closed to leasing or designated as open to oil and gas development under (a) standard terms and conditions, (b) timing limitations (seasonal) constraints, (c) controlled surface use constraints, or (d) no surface occupancy constraints; and
