SUPPLEMENTARY INFORMATION:

Title: Survey—Labor Migration and the Deepwater Oil Industry.

OMB Control Number: 1010-NEW.

Abstract: The Outer Continental Shelf (OCS) Lands Act, 43 U.S.C. 1331 *et seq.*, requires the Secretary of the Interior to preserve, protect, and develop oil and gas resources in the OCS; make such resources available to meet the Nation's energy needs as rapidly as possible; balance orderly energy resources development with protection of the human, marine, and coastal environment; ensure the public a fair and equitable return on the resources offshore; and preserve and maintain free enterprise competition.

The OCS Lands Act (at 43 U.S.C. 1346, Environmental Studies) instructs the Secretary of the Interior to conduct studies to establish environmental information as he deems necessary and to monitor the human, marine, and coastal environments. The purpose of the studies is to provide time-series and data trend information which can be used to identify any significant changes in the quality and productivity of such environments, to establish trends in the areas studied and monitored, and to design experiments to identify the causes of such changes. This authority and responsibility are among those delegated to MMS.

MMS proposes to conduct a survey to examine the consequences of international labor on four port communities in southern Louisiana. The information collected will aid MMS in understanding the impact of foreign labor on the well-being of communities in southern Louisiana. The scientific information is needed to understand the concerns, fears, and desires of communities with respect to OCS activities, and it is necessary for successful operation of the OCS oil and gas program in the region.

Questions in the survey will address the respondent's historical ties to the oil and gas industry; current views about his/her community, impact of the

presence of foreign-born immigrants in the four communities, and background and household information.

Responses are voluntary. No proprietary items or questions of a sensitive nature will be collected.

Frequency: This will be a one-time data collection activity.

Estimated Number and Description of Respondents: Approximately 200 randomly selected households in each of the four communities (800 respondents).

Estimated Annual Reporting and Recordkeeping "Hour" Burden:

Approximately 25 minutes per survey for the primary data collection effort. Follow-up discussions, when held, will average approximately 20 minutes. The total annual burden is estimated at 340 hours (333 hours for primary survey + 7 hours for follow-up conversations).

Estimated Annual Reporting and Recordkeeping "Non-Hour Cost"

Burden: We have identified no non-hour cost burdens to the respondents.

Comments: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Section 3506(c)(2)(A) of the PRA requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *". Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on June 22, 2000, we published a **Federal Register** notice (65 FR 38852) with the required 60-day comment period announcing that we would submit this ICR to OMB for approval. We have received no comments in response to that initial notice. If you wish to comment in response to this notice, send your comments directly to the offices listed under the **ADDRESSES** section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum

consideration, OMB should receive public comments by October 19, 2000.

Proposed facility(ies) may include construction of a new facility, expansion of an existing facility, or use of an existing facility. Twenty sites throughout Arizona and California have been identified by contractors and offered to the BOP for consideration. The proposed sites have been submitted by the following contractors:
