Applicants' Representations

1. The Feeder Funds and the Portfolio are business trusts organized under Massachusetts and New York law, respectively, and are registered under the Act as closed-end management investment companies. The Feeder Funds invest their assets in the Portfolio pursuant to a master-feeder structure. Eaton Vance serves as principal underwriter and administrator for the Feeder Funds. BMR, a wholly-owned subsidiary of EVM, serves as investment adviser to the Portfolio and is registered under the Investment Advisers Act of 1940. Applicants request that the order also apply to any other registered closed-end investment company existing now or in the future for which BMR or the Distributor or any entity controlling, controlled by, or under common control with BMR or the Distributor acts as investment advisers or principal underwriter. Any such investment company relying on the requested relief will do so in a manner consistent with the terms and conditions of the application. Each investment company presently intending to rely on the requested relief is named as an applicant.

2. The Feeder Funds continuously offer their shares to the public at net asset value ("NAV"). The Feeder Funds do not redeem shares daily and there presently is no secondary market for their shares. Shareholders who wish to sell their shares depend on quarterly repurchase offers in which the Feeder Funds offer to repurchase shares at NAV (less any applicable early withdrawal charges ("EWCs")). These repurchase offers are made pursuant to rule 23c-3 under the Act and an exemptive order.¹

3. Each Fund, pursuant to an exemptive order, imposes an annual asset-based distribution fees.² Applicants represent that each Fund's distribution fees will comply with the requirement of Conduct Rule 2830(d) of the National Association of Securities Dealers, Inc. ("NASD").

4. Currently, each of prime Rate and EV Classic offers a single class of shares ("Original Class"). Prime Rate may offer two additional classes of shares, Class A and Class B, and EV Classic may offer one additional class of shares, Class C. The Original Class of shares of the Funds would be closed to new investors and would only be available to current shareholders of the Funds. Class A shares initially would be made available only upon the conversion of Class B shares or by exchange of Class A shares of other Eaton Vance funds. Class B shares would be offered without a front-end sales charge but would be subject to an EWC in amounts declining over time. Class B shares would automatically convert to Class A shares after a certain period of time from which they were originally purchased. Shareholders would not incur any sales charge on the conversion of Class B shares to Class A shares. Class C shares would be offered with no front-end sales charge but Class C shares repurchased by EV Classic within a certain time period would be subject to an EWC. The Class B and Class C EWCs may be waived in certain circumstances. Class A, Class B, and Class C shares may be subject to an annual shareholder servicing fee.

5. All expenses incurred by a Feeder Fund will be allocated among the various classes of shares based on the net assets of a Feeder fund attributable
