

letters, faxes, and email during the comment period were considered and incorporated in the final EA.

We received a total of 64 letters on the draft EA, 59 of which supported the preferred alternative proposal for an overlay refuge with potential transfer of jurisdiction, custody, and control to the Service. One letter expressed opposition to any Service involvement at the LHAAP because of possible impacts on future economic development. Two letters supported an option of retaining the refuge in overlay status only; two letters expressed no preference. A total of 52 people attended the public meeting, and 14 spoke during the meeting. All speakers and questioners at the meeting and open house expressed support for some Service involvement at the LHAAP. In addition, the Army has published a number of environmental documents dealing with the cleanup of contaminants during the last decade. Many public meetings have been held and continue to be held to update the public on the cleanup process.

Based on the documentation contained in the environmental assessment, we signed a Finding of No Significant Impact on September 22, 2000. We will establish an overlay refuge and potentially accept primary jurisdiction, custody and control of up to 8,500 acres at the Longhorn Army Ammunition Plant in Harrison County, Texas. A draft Conceptual Management Plan has been prepared.
