Regulations Governing Off-the-Record Communications; Public Notice

October 20, 2000.

This constitutes notice, in accordance with 18 CFR 385.220(h), of the receipt of exempt and prohibited off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive an exempt or a prohibited off-the-record communication relevant to the merits of a contested on-the-record proceeding, to deliver a copy of the communication, if written, or a summary of the substance of any oral communication, to the Secretary.

Prohibited communications will be included in a public, non-decisional file associated with, but not part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such requests only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication should serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications will be included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of exempt and prohibited off-the-record communications received in the Office of the Secretary within the preceding 14 days. The documents may be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

SUPPLEMENTARY INFORMATION: *Title:* EPA Landfill Methane Outreach Program (EPA ICR No. 1849.01). This is a new collection.

Abstract: The Landfill Methane Outreach Program (LMOP) is an EPA-sponsored voluntary program that encourages landfill owners, communities, and project developers to implement methane recovery technologies to utilize the methane as a source of fuel and to reduce emissions of methane, a potent greenhouse gas. The Landfill Methane Outreach Program further encourages utilities and other energy customers to support and promote the use of landfill methane at their facilities. The Landfill Methane Outreach Program signs voluntary Memoranda of Understanding (MOU) with these organizations to enlist their support in promoting cost-effective landfill gas utilization. The information collection includes one-time completion and submission of the MOU, and one-time and periodic completion and submission of information forms that include basic information on the organizations that sign the MOU and landfill methane projects in which they are involved. The primary purpose of the information collection is to evaluate the success of the LMOP in reducing methane emissions from landfills. Responses to the information collection

are voluntary. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on 2/14/2000 (65 FR 7390); no comments were received.

Respondents/Affected Entities: Local agencies and municipalities that own landfills, State agencies, Manufacturers and suppliers of equipment/knowledge to capture and utilize landfill gas, utility companies, End users of energy from the landfill.

Estimated Number of Respondents: 310 (average over 3 years).

Frequency of Response: Annually and on occasion.

Estimated Total Annual Hour Burden: 1,484 hours.

Estimated Total Annualized Capital and Operating & Maintenance Cost Burden: \$670.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the addresses listed above.
