SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can

be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed new collection of the Survey of Respirator Use and Practices. A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before December 26, 2000.

SUPPLEMENTARY INFORMATION:

I. Background

The National Institute for Occupational Safety and Health (NIOSH) and the Bureau of Labor Statistics (BLS), U.S. Department of Labor (DOL) have agreed to conduct a survey of United States employers regarding the use of respiratory protective devices. Employers are required to provide respirators to workers when such equipment is necessary to protect the health of the employee. The employer has the responsibility to provide respirators that are applicable and suitable for the purpose intended, and to establish and maintain a respiratory protection program.

The NIOSH respirator certification and research program must assure, in the best manner reasonably possible, that users are provided with correct and needed products and information so that they can be properly protected when using respirators. However, there are no detailed estimates of current respirator usage. The NIOSH respirator certification program operates under the assumption that all respirator users are using respirators in a complete respirator program. On the other hand, sources such as respirator manufacturers, state that users often wear respirators with little training and without the benefit of a respirator program. As a result, there is a pressing

need to gather accurate and up-to-date information regarding respirator use in the workplace so that the NIOSH respirator certification and research program can assure that workers have needed products and are properly informed and protected.

II. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Rule 15c2–12, SEC File No. 270–330, OMB Control No. 3235–0372

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (“Commission”) has submitted to the Office of Management and Budget a request for extension of a previously approved collection of information discussed below.

- Rule 15c2–12 Disclosure requirements for municipal securities
- Rule 15c–12, under the Securities Exchange Act of 1934, requires underwriters of municipal securities: (1) To obtain an review a copy of an official statement deemed final by an issuer of the securities, except for the omission of specified information; (2) in non-competitively bid offerings, to make available, upon request, the most recent preliminary official statement, if any; (3) to contract with the issuer of the securities, or its agent, to receive, within specified time periods, sufficient copies of the issuer's final official statement to comply both with this rule and any rules of the MSRB; (4) to provide, for a specified period of time, copies of the final official statement to any potential customer upon request; (5) before purchasing or selling municipal securities in connection with an offering, to reasonably determine that the issuer or other specified person has undertaken, in a written agreement or contract, for the benefit of holders of such municipal securities, to provide certain information about the issue or issuer on a continuing basis to a nationally recognized municipal securities information repository; and (6) to review the information the issuer of the municipal security has undertaken to provide prior to recommending a transaction in the municipal security.

These disclosure and recordkeeping requirements will ensure that investors have adequate access to official disclosure documents that contain details about the value and risks of particular municipal securities at the time of issuance while the existence of compulsory repositories will ensure that investors have continued access to terms and provisions relating to certain static features of those municipal securities. The provisions of Rule 15c2–12 regarding an issuer's continuing disclosure requirements assist investors by ensuring that information about an issue or issuer remains available after the issuance.

Municipal offerings of less than \$1 million are exempt from the rule, as are offerings of municipal securities issued in large denominations that are sold to no more than 35 sophisticated investors, have short-term maturities, or have short-term tender or put features. It is estimated that approximately 12,000 brokers, dealers, municipal securities dealers, issuers of municipal securities, and nationally recognized municipal securities information repositories will spend a total of 123,850 hours per year complying with Rule 15c2–12. Based on average cost per hour of \$50, the total cost of compliance with Rule 15c2–12 is \$6,192,500.

There is no specific retention period applied by Rule 15c2–12 for the recordkeeping requirement contained in Rule 15c2–12. The retention period is determined by private agreement between a nationally recognized municipal securities information repository and the issuer.

The recordkeeping requirement is mandatory to ensure that investors have access to information about the issuer and particular issues of municipal securities. This rule does not involve the collection of confidential information. Please note that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

General Comments regarding the estimated burden hours should be directed to the following persons: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, D.C. 20503; and (ii) Michael E. Bartell, Associate Executive Director, Office of Information Technology, Securities and Exchange Commission, 450 5th Street, N.W., Washington, D.C. 20549.
