

if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." Accordingly, the FMCSA has evaluated the nine petitions for renewal on their merits and made a determination to extend their exemptions for a renewable 2-year period.

On October 9, 1998, the agency published a notice of final disposition announcing its decision to exempt 12 individuals, including these nine applicants for renewal, from the vision requirement in 49 CFR 391.41(b)(10) (63 FR 54519). The qualifications, experience, and medical condition of each applicant were stated and discussed in detail at 63 FR 30285, June 3, 1998. Three comments were received, and their contents were carefully considered by the agency in reaching its final decision to grant the petitions (63 FR 54519). The agency determined that exempting the individuals from 49 CFR 391.41(b)(10) was likely to achieve a level of safety equal to, or greater than, the level that would be achieved without the exemption as long as the vision in each applicant's better eye continues to meet the standard specified in 391.41(b)(10). As a condition of the exemption, therefore, the agency imposed requirements on the individuals similar to the grandfathering provisions in 49 CFR 391.64(b) applied to drivers who participated in the agency's former vision waiver program.

These requirements are as follows: (1) That each individual be physically examined every year (a) by an ophthalmologist or optometrist who attests that vision in the better eye meets the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official.

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than 2 years from its approval date and may be renewed upon application for an additional 2-year period. In accordance with 49 U.S.C. 31315 and 31136(e), each

of the nine applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (63 FR 30285; 63 FR 54519) and each has requested timely renewal of the exemption. These nine applicants have submitted evidence showing that the vision in their better eye continues to meet the standard specified at 49 CFR 391.41(b)(10), and that the vision impairment is stable. In addition, a review of their records of safety while driving with their respective vision deficiencies over the past 2 years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, the FMCSA concludes that extending the exemption for a period of 2 years is likely to achieve a level of safety equal to that existing without the exemption for each renewal applicant.

Conclusion

In accordance with 49 U.S.C. 31315 and 31136(e), the FMCSA extends the exemptions from the vision requirement in 49 CFR 391.41(b)(10) granted to Larry A. Dahleen, Earl D. Edland, Dale H. Hellman, Danny E. Hillier, Robert J. Johnson, Michael L. Manning, Gerald R. Rietmann, Jimmy E. Settle, and Hubert Whittenburg, subject to the following conditions: (1) That each individual be physically examined every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retains a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for 2 years unless revoked earlier by the FMCSA. The exemption will be revoked if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31315 and 31136(e).

Request for Comments

The FMCSA has evaluated the qualifications and driving performance of the nine applicants here and extends their exemptions based on the evidence introduced. The agency will review any comments received concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31315 and 31136(e). While comments of this nature will be entertained at any time, the FMCSA requests that interested parties with information concerning the safety records of these drivers submit comments by December 4, 2000. All comments will be considered and will be available for examination in the docket room at the above address. The FMCSA will also continue to file in the docket relevant information which becomes available. Interested persons should continue to examine the docket for new material.

Authority: 49 U.S.C. 322, 31136 and 31315; and 49 CFR 1.73.

Issued on: October 30, 2000.

Clyde J. Hart, Jr.,

Acting Deputy Administrator, Federal Motor Carrier Safety Administration.

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Railroad Administration, DOT.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and its implementing regulations, the Federal Railroad Administration (FRA) hereby announces that it is seeking renewal of the following currently approved information collection activities. Before submitting these information collection requirements for clearance by the Office of Management and Budget (OMB), FRA is soliciting public comment on specific aspects of the activities identified below.

DATES: Comments must be received no later than January 2, 2001.

ADDRESSES: Submit written comments on any or all of the following proposed activities by mail to either: Mr. Robert Brogan, Office of Safety, Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1120 Vermont

Ave., NW., Mail Stop 17, Washington, DC 20590, or Ms. Dian Deal, Office of Information Technology and Productivity Improvement, RAD-20, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 35, Washington, DC 20590. Commenters requesting FRA to acknowledge receipt of their respective comments must include a self-addressed stamped postcard stating, "Comments on OMB control number ____." Alternatively, comments may be transmitted via facsimile to (202) 493-6265 or (202) 493-6170, or E-mail to Mr. Brogan at robert.brogan@fra.dot.gov, or to Ms. Deal at dian.deal@fra.dot.gov. Please refer to the assigned OMB control number in any correspondence submitted. FRA will summarize comments received in response to this notice in a subsequent notice and include them in its information collection submission to OMB for approval.

FOR FURTHER INFORMATION CONTACT: Mr. Robert Brogan, Office of Planning and Evaluation Division, RRS-21, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 17, Washington, DC 20590 (telephone: (202) 493-6292) or Dian Deal, Office of Information Technology and Productivity Improvement, RAD-20, Federal Railroad Administration, 1120 Vermont Ave., NW., Mail Stop 35, Washington, DC 20590 (telephone: (202) 493-6133). (These telephone numbers are not toll-free.)

SUPPLEMENTARY INFORMATION: The Paperwork Reduction Act of 1995 (PRA), Pub. L. 104-13, 2, 109 Stat. 163 (1995) (codified as revised at 44 U.S.C. 3501-3520), and its implementing regulations, 5 CFR part 1320, require Federal agencies to provide 60-days notice to the public for comment on information collection activities before seeking approval for reinstatement or renewal by OMB. 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1), 1320.10(e)(1), 1320.12(a). Specifically, FRA invites interested respondents to comment on the following summary of proposed information collection activities regarding: (i) Whether the information collection activities are necessary for FRA to properly execute its functions, including whether the activities will have practical utility; (ii) the accuracy of FRA's estimates of the burden of the information collection activities, including the validity of the methodology and assumptions used to determine the estimates; (iii) ways for FRA to enhance the quality, utility, and clarity of the information being collected; and (iv) ways for FRA to

minimize the burden of information collection activities on the public by automated, electronic, mechanical, or other technological collection techniques or other forms of information technology (e.g., permitting electronic submission of responses). See 44 U.S.C. 3506(c)(2)(A)(I)-(iv); 5 CFR 1320.8(d)(1)(I)-(iv). FRA believes that soliciting public comment will promote its efforts to reduce the administrative and paperwork burdens associated with the collection of information mandated by Federal regulations. In summary, FRA reasons that comments received will advance three objectives: (i) reduce reporting burdens; (ii) ensure that it organizes information collection requirements in a "user friendly" format to improve the use of such information; and (iii) accurately assess the resources expended to retrieve and produce information requested. See 44 U.S.C. 3501.

Below is a brief summary of currently approved information collection activities that FRA will submit for clearance by OMB as required under the PRA:

Title: Special Notice For Repairs.

OMB Control Number: 2130-0504.

Abstract: The collection of information is used by state and Federal inspectors to remove freight cars or locomotives from service until they can be restored to a serviceable condition. It is also used by state and Federal inspectors to reduce the maximum authorized speed on a section of track until repairs can be made. Additionally, the collection of information provides railroads written notice that an inspector has recommended to the FRA Administrator to remove from service a section of track that is not safe to use at any speed. Railroads must return the required form after the necessary repairs have been made.

Form Number(s): FRA F 6180.8 and FRA F 6180.8a.

Affected Public: Businesses.

Respondent Universe: 685 railroads.

Frequency of Submission: On occasion.

Estimated Annual Burden: 7 hours.

Status: Regular Review.

Title: Designation of Qualified Persons.

OMB Control Number: 2130-0511.

Abstract: The collection of information is used to prevent the unsafe movement of defective freight cars. Railroads are required to inspect the freight cars for compliance and to determine restrictions on the movement of defective cars.

Affected Public: Businesses.

Respondent Universe: 685 railroads.

Frequency of Submission: On occasion.

Estimated Annual Burden: 40 hours.

Status: Regular Review.

Pursuant to 44 U.S.C. 3507(a) and 5 CFR 1320.5(b), 1320.8(b)(3)(vi), FRA informs all interested parties that it may not conduct or sponsor, and a respondent is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Authority: 44 U.S.C. 3501-3520.

Issued in Washington, D.C. on October 31, 2000.

Kathy A. Weiner,

Director, Office of Information Technology and Support Systems, Federal Railroad Administration.

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

Environmental Impact Statement on the Northwest Corridor—Carrollton Line Light Rail Transit Project in Dallas, Farmers Branch, and Carrollton, TX

AGENCY: Federal Transit Administration, DOT.

ACTION: Notice of Intent to prepare an environmental impact statement.

SUMMARY: The Federal Transit Administration (FTA) and Dallas Area Rapid Transit (DART) have issued this notice to advise interested agencies and the public of their intent to prepare an Environmental Impact Statement (EIS) on the proposed Northwest Corridor-Carrollton Line Light Rail Transit (LRT) Project in Dallas, Farmers Branch, and Carrollton, Texas. The EIS will be prepared in accordance with the National Environmental Policy Act of 1969 (NEPA), as amended. The Dallas-Fort Worth region is currently designated as a serious non-attainment area for ozone by the Environmental Protection Agency.

The Northwest Corridor-Carrollton Line LRT Project is the product of the Northwest Corridor Major Investment Study (MIS) completed by DART in early 2000. The MIS identified a Locally Preferred Investment Strategy (LPIS), which included a light rail element with two service lines, the Carrollton Line and the DFW Line. The Carrollton Line is being advanced into the EIS phase of project development at this time. The DFW Line will be advanced into the EIS process at a later time when alignment and land use issues are resolved. A separate EIS is also being prepared for
