

file additional applications would impair Applicants' ability to take advantage of business opportunities as they arise. Further, Applicants state that if Applicants were required repeatedly to seek exemptive relief with respect to the same issues addressed in the application described herein, investors would not receive any benefit or additional protection thereby.

Conclusion

Applicants assert, based on the grounds summarized above, that their exemptive requests meet the standards set out in Section 6(c) of the Act, namely, that the exemptions requested are necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASD Regulation included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASD Regulation has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Regulatory Element is a 3½ hour computer-based training program that currently can only be administered to registered persons at the location of an outside vendor. NASD Rule 1120(a) requires that each registered person, who is not exempt from the Rule, complete the Regulatory Element on the occurrence of his or her second registration anniversary and every three years thereafter. On each occasion, the training must be completed within 120 days after the registered person's anniversary date. A registered person who has not completed the Regulatory Element within the prescribed time period is deemed to be inactive until the Regulatory Element has been fulfilled, and may not conduct, or be compensated for, activities requiring a securities registration.

The Securities Industry/Regulatory Council on Continuing Education ("Council") is responsible for the oversight of the continuing education program for the securities industry. The Council's duties include recommending and helping to develop specific content and questions for the Regulatory Element, and minimum core curricula for the Firm Element. The Council is comprised of 14 representatives from a broad cross section of broker/dealers, six self-regulatory organizations, including the NASD. The Council, working with representatives from the North American Securities Administrators Association, and with the knowledge of the Council's SEC liaisons, has developed a model under which broker/dealers may deliver the Regulatory Element computer-based training on firm premises. The model requires that the broker/dealer meet certain conditions for in-firm delivery relating to computer hardware and to the security of the training delivery environment. The proposed amendments to Rule 1120(a) encapsulate the delivery requirements as specified by the Council. Firms of any size may take advantage of the in-firm delivery procedures.

2. Statutory Basis

NASD Regulation believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act,³ which requires, among other things, that the Association's rules must be designed to prevent fraudulent and

manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. NASD Regulation believes that the proposed rule change will facilitate registered persons' satisfying their obligations to meet the Regulatory Element of the continuing education requirement.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASD Regulation does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing For Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the NASD consents, the Commission will:

A. By order approve such proposed rule change, or

B. Institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, NW, Washington, DC 20549-0609. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to this proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at

SUPPLEMENTARY INFORMATION:

1. Title: Bid Price Data.

OMB Control Number: 2125–0010 (Expiration Date: March 31, 2001).

Abstract: Information collected on Form FHWA–45, Bid Price Data, is needed for the FHWA to monitor changes in purchasing power of the Federal-aid construction dollar. FHWA follows these trends so that changes in highway construction prices can be measured and funding level recommendations to Congress can be justified. The Federal share of the cost of certain projects constructed by the States in advance of regular apportionments is adjusted based on the bid price index (Title 23 United States Code 115). Form FHWA–45 is prepared for Federal-aid highway construction contracts greater than \$0.5 million in the 50 States plus Washington, DC, and Puerto Rico. Data is reported on six major items of highway construction, together with the total materials and labor costs of the project, taken from the bid tabulation of construction items submitted by the lowest or winning bidder to the State Transportation Department. The State Transportation Departments furnish copies of the bid tabulation to the FHWA that uses the data to produce the national FHWA bid price index and related statistics.

Respondents: 52 State Transportation Departments, including the District of Columbia and Puerto Rico.

Frequency: The data is collected by the States and submitted to FHWA one
