

orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By March 9, 2000, any person whose interest may be affected by the Commission's action on the application may request a hearing, and, if not the applicants, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR Part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)–(2).

Requests for a hearing and petitions for leave to intervene should be served upon counsel for PSEG Nuclear, LLC, Jeffrie J. Keenan, Esquire, Public Service Electric and Gas Company, Nuclear Business Unit—N21, P.O. Box 236, Hancocks Bridge, NJ 08038 (tel: 856–339–5429, fax: 856–339–1234, and e-

mail: jeffrie.keenan@pseg.com); the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only: ogclt@nrc.gov); and the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by March 20, 2000, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the application dated December 20, 1999, and supplement dated February 11, 2000, which are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland this 14th day of February 2000.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50–354]

### Public Service Electric & Gas Company, Hope Creek Generating Station; Notice of Consideration of Approval of Transfer of Facility Operating License and Conforming Amendment, and Opportunity for a Hearing

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the transfer of Facility Operating License NPF–57 for the Hope Creek Generating Station, to the extent currently held by the Atlantic City Electric Company (ACE), to PSEG Nuclear LLC. The Commission is also considering amending the license for administrative purposes to reflect the proposed transfer.

According to an application for approval filed by Public Service Electric and Gas Company (PSE&G), PSEG Nuclear LLC, and ACE, PSEG Nuclear would purchase ACE's interest in the facility following approval of the proposed transfer of the license. Depending upon the timing of regulatory approvals being sought by PSEG Nuclear concerning other transfer matters not involving ACE, as an interim step the interest of ACE to be purchased by PSEG Nuclear may be transferred to PSEG Power LLC, the parent of PSEG Nuclear, or to PSE&G, and then to PSEG Nuclear. No physical changes to the Hope Creek facility or operational changes are being proposed in the application.

The proposed amendment would remove references in the license to ACE, and add references to PSEG Nuclear, as appropriate, to reflect the proposed transfer.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to hold the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendment, the Commission will have made findings required by the Atomic Energy Act of

1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility which does no more than conform the license to reflect the transfer action involves no significant hazards consideration. No contrary determination has been made with respect to this specific license amendment application. In light of the generic determination reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By March 9, 2000, any person whose interest may be affected by the Commission's action on the application may request a hearing, and, if not the applicants, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR Part 2. In particular, such requests and petitions must comply with the requirements set forth in 10 CFR 2.1306, and should address the considerations contained in 10 CFR 2.1308(a). Untimely requests and petitions may be denied, as provided in 10 CFR 2.1308(b), unless good cause for failure to file on time is established. In addition, an untimely request or petition should address the factors that the Commission will also consider, in reviewing untimely requests or petitions, set forth in 10 CFR 2.1308(b)(1)–(2).

Requests for a hearing and petitions for leave to intervene should be served upon counsel for PSEG Nuclear, LLC, Jeffrie J. Keenan, Esquire, Public Service Electric and Gas Company, Nuclear Business Unit—N21, P.O. Box 236, Hancocks Bridge, NJ 08038 (tel: 856–339–5429, fax: 856–339–1234, and e-mail: jeffrie.keenan@pseg.com); the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555 (e-mail address for filings regarding license transfer cases only: ogclt@nrc.gov); and the Secretary of the

Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, in accordance with 10 CFR 2.1313.

The Commission will issue a notice or order granting or denying a hearing request or intervention petition, designating the issues for any hearing that will be held and designating the Presiding Officer. A notice granting a hearing will be published in the **Federal Register** and served on the parties to the hearing.

As an alternative to requests for hearing and petitions to intervene, by March 20, 2000, persons may submit written comments regarding the license transfer application, as provided for in 10 CFR 2.1305. The Commission will consider and, if appropriate, respond to these comments, but such comments will not otherwise constitute part of the decisional record. Comments should be submitted to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001, Attention: Rulemakings and Adjudications Staff, and should cite the publication date and page number of this **Federal Register** notice.

For further details with respect to this action, see the application dated December 20, 1999, and supplemented dated February 11, 2000, which are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW, Washington, DC, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland this 14th day of February 2000.

For the Nuclear Regulatory Commission.

## SECURITIES AND EXCHANGE COMMISSION

### Submission for OMB Review, Comment Request

Upon written request, copies available from: Securities and Exchange Commission, Office of Filings and Information Services, 450 Fifth Street, NW., Washington, DC 20549.

Extension: Rule 34b–1.

File No. 270–305.

OMB Control No. 3235–0346.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 [44 U.S.C. 3501 *et seq.*], the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget ("OMB") a request for extension of the previously approved collection of information discussed below.

### Rule 34b–1 Under the Investment Company Act of 1940, Sales Literature Deemed To Be Misleading

Rule 34b–1 under the Investment Company Act of 1940 ("Investment Company Act") [17 CFR § 270.34b–1] governs sales material that accompanies or follows the delivery of a statutory prospectus ("sales literature"). Rule 34b–1 deems to be materially misleading any investment company sales literature, required to be filed with the Commission by section 24(b) of the Investment Company Act,<sup>1</sup> that includes any information that purports to show the investment performance of the investment company unless it also includes performance data calculated in a manner prescribed by rule 482 under the Securities Act of 1933. Requiring the inclusion of such standardized performance data in sales literature is designed to prevent misleading performance claims by funds and to enable investors to make meaningful comparisons among fund performance claims.

It is estimated that there are approximately 545 respondents that file with the Commission approximately five responses annually, which include the information required by rule 34b–1. The burden from rule 34b–1 requires approximately 2.4 hours per response resulting from creating the information required under rule 34b–1. The total burden hours for rule 34b–1 would be 6,540 hours per respondent. The estimated annual burden of 6,540 hours represents an increase of 3,096 hours over the prior estimate of 3,444 hours. The increase in burden hours is attributable to an increase in the number of respondents from 287 to 545.

The estimates of average burden hours are made solely for the purposes of the Act and are not derived from a comprehensive or even representative

<sup>1</sup> Sales literature addressed to or intended for distribution to prospective investors shall be deemed filed with the Commission for purposes of Section 24(b) of the Investment Company Act upon filing with a national securities association registered under Section 15A of the Securities Exchange Act of 1934 that has adopted rules providing standards for the investment company advertising practices of its members and has established and implemented procedures to review that advertising. See Rule 24b–3 under the Investment Company Act [17 CFR 270.24b–3].
