

4. *Establishing methodology for offsetting cost of producing self-employment income*—7 CFR 273.10. In accordance with Section 5(d)(9) of the Act, 7 U.S.C. 2014(d)(9), the gross amount of self-employment income is reduced by the cost of producing such income. Section 5(m) of the Act, 7 U.S.C. 2014(m), as amended by section 812 of PRWORA, allows State agencies to use a reasonable estimate of self-employment costs rather than actual costs to compute net income from self-employment provided the method will not increase program costs. Requests to use such estimates must be submitted to FNS and must include a description of the proposed method; the number, type and percent of households affected; and documentation indicating that the procedure would not increase Program costs. We estimate that 10 State agencies will submit requests of this type each year for the next three years. It is estimated that these States will incur a one-time burden of at least 10 working hours gathering and analyzing data, developing the methodology, determining the cost implication, and submitting a request to FNS for a total burden of 100 hours annually. State agencies are not required to periodically review their approved methodologies. We do not anticipate that State agencies will voluntarily review their methodologies for change on a regular basis, thus burden is not being assessed for this purpose at this time.

Affected Public: State and local governments.

Estimated Number of Respondents: 53.

Estimated Number of Responses: 93.

Estimated Annual Burden on Respondents: 250.

Dated: February 8, 2001.

George A. Braley,

Acting Administrator, Food and Nutrition Service.

Stainless Steel Sheet and Strip in Coils From Mexico; Antidumping Duty Administrative Review; Time Limits

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of extension of time limits.

SUMMARY: The Department of Commerce (the Department) is extending the time limits for the preliminary results of the 1999-2000 administrative review of the antidumping duty order (A-201-822) on stainless steel sheet and strip in coils from Mexico. This review covers one manufacturer/exporter of the subject merchandise to the United States and the period January 4, 1999 through June 30, 2000.

EFFECTIVE DATE: February 15, 2001.

FOR FURTHER INFORMATION CONTACT: Deborah Scott at (202) 482-2657 or Robert James at (202) 482-0649, Antidumping and Countervailing Duty Enforcement Group III, Office Eight, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230.

SUPPLEMENTARY INFORMATION: Because it is not practicable to complete these reviews within the normal statutory time limit, the Department is extending the time limits for completion of the preliminary results until July 31, 2001 in accordance with section 751(a)(3)(A) of the Tariff Act of 1930, as amended. See Memorandum from Richard O. Weible to Joseph A. Spetrini, on file in Room B-099 of the main Commerce building. The deadline for the final results of this review will continue to be 120 days after publication of the preliminary results.

This extension is in accordance with section 751(a)(3)(A) of the Tariff Act of 1930, as amended (19 U.S.C. 1675 (a)(3)(A) (2000)).

Dated: February 8, 2001.

Joseph A. Spetrini,

Deputy Assistant Secretary, AD/CVD Enforcement Group III.

Application for Duty-Free Entry of Scientific Instrument

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether an instrument of equivalent scientific value, for the purposes for which the instrument shown below is intended to be used, is being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and

be filed within 20 days with the Statutory Import Programs Staff, U.S. Department of Commerce, Washington, D.C. 20230. Applications may be examined between 8:30 A.M. and 5 P.M. in Room 4211, U.S. Department of Commerce, 14th Street and Constitution Avenue, N.W., Washington, D.C.

Docket Number: 01-005. *Applicant:* Pennsylvania State University, Physics Department, 104 Davey Laboratory, University Park, PA 16802-6300.

Instrument: Dilution Refrigerator and Superconducting Magnet System, Models 126-250 TOF and 6T-76-H3.

Manufacturer: Leiden Cryogenics B.V., The Netherlands. *Intended Use:* The instrument is intended to be used to carry out electrical, magnetic and thermodynamic measurements at the lowest possible temperature and under a magnetic field up to 6 Tesla, of metallic systems infiltrated into ordered porous media. It is possible that these studies will also bring forth new application and further reduce the sizes of electronic devices in the future.

Application accepted by Commissioner of Customs: January 30, 2001.

Gerald A. Zerdy,

Program Manager, Statutory Import Programs Staff.

National Oceanic and Atmospheric Administration

[I.D. 010501A]

Marine Mammals; File No. 545-1562-00

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit.

SUMMARY: Notice is hereby given that Olga von Ziegesar, North Gulf Oceanic Society, P.O. Box 15191, Homer, Alaska 99603, has been issued a permit to take humpback whales (*Megaptera novaeangliae*) for purposes of scientific research.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the following office(s):

Permits and Documentation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910 (301/713-2289); and

Regional Administrator, Alaska Region, NMFS, 709 West 9th Street, 4th

Floor, Juneau, Alaska 99801, (907/586-7221).

FOR FURTHER INFORMATION CONTACT: Jill Lewandowski or Trevor Spradlin, 301/713-2289.

SUPPLEMENTARY INFORMATION: On February 9, 2000, notice was published in the **Federal Register** (65 FR 6360) that a request for a scientific research permit to take humpback whales had been submitted by the above-named Olga von Ziegesar, North Gulf Oceanic Society. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

Issuance of this permit, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: February 9, 2001.

Eugene T. Nitta,

Acting Chief, Permits Division, Office of Protected Resources, National Marine Fisheries Service.

[I.D. 121300A]

National Plan of Action for the Conservation and Management of Sharks

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability of final plan; response to public comments.

SUMMARY: NMFS announces the availability of the final National Plan of Action (NPOA) developed pursuant to the endorsement of the International Plan of Action (IPOA) for the Conservation and Management of Sharks by the United Nations' Food and Agriculture Organization Committee on Fisheries (COFI) Ministerial Meeting in

February 1999. NMFS prepared this final plan based on consultation with scientific and technical experts, and certain Federal and state agencies, and comments from members of the public. Response to public comments on the draft NPOA is provided.

ADDRESSES: Written requests for copies of the final NPOA should be sent to Margo Schulze-Haugen, Highly Migratory Species Management Division (F/SF1), National Marine Fisheries Service (NMFS), 1315 East-West Highway, Silver Spring, MD 20910, or may be sent via facsimile (fax) to 301-713-1917.

FOR FURTHER INFORMATION CONTACT: Margo Schulze-Haugen or Karyl Brewster-Geisz, (301) 713-2347; fax (301) 713-1917.

SUPPLEMENTARY INFORMATION: Noting the increased concern about the expanding catches of sharks and their potential negative impacts on shark populations, the IPOA calls on member nations to voluntarily develop national plans to ensure the conservation and management of sharks for their long-term sustainable use by applying the precautionary approach. Member nations are encouraged to develop and implement an NPOA if their vessels conduct directed fisheries for sharks or if their vessels regularly catch sharks incidentally in fisheries for other species. Specifically, the IPOA calls on member nations to ensure that shark catches from directed and incidental fisheries are sustainable; assess threats to shark populations; protect critical habitats; provide special attention to vulnerable or threatened shark stocks; minimize unutilized incidental catches of sharks; encourage full use of dead sharks; improve species-specific catch and landings data and monitoring of shark catches; and consult with stakeholders in research, management, and educational initiatives within and between member nations. The United States committed to developing this national plan, and reporting on its implementation to COFI, no later than the 25th COFI session in February 2001.

A proposed schedule, outline, background, and rationale were published in the **Federal Register** on September 30, 1999 (64 FR 52772). A revised schedule was published in the **Federal Register** on March 27, 2000 (65 FR 16186). A notice of availability of the draft NPOA was published in the **Federal Register** on August 4, 2000 (65 FR 47968); the comment period ended September 30, 2000.

Comments and Responses

Comment 1: The NPOA is not a plan of action at all; it fails to commit to a strategy for action with clearly articulated short and long-term goals, priorities, time frames, responsible management entities, and funding.

Response: The NPOA was developed by NMFS to fulfill the national responsibility of the United States. NMFS' goal in the NPOA is to establish a process where the various entities in the United States work cooperatively to fulfill the objectives of the IPOA. The authority under which NMFS operates is the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), which calls for the conservation and management of living marine resources, including sharks, and establishes requirements and deadlines for rebuilding plans for overfished species. The Magnuson-Stevens Act does not give NMFS the authority to "require" Regional Fishery Management Councils (Councils) to take a specific action for those species of sharks that are not under direct agency management. While it is true that the agency may prepare a new fishery management plan (FMP) or amend an existing FMP if the appropriate Council fails to develop, after a reasonable period of time, necessary management measures, it is preferable that the appropriate Council act first.

Additionally, NMFS has no authority to review or direct Interstate Fisheries Commissions (Commissions) or coastal States to take action(s) regarding shark conservation and management. Thus, NMFS will work cooperatively with Councils, Commissions, and States and encourage them to take action to ensure the conservation and management of sharks and their long-term sustainable use.

Nevertheless, the final NPOA for sharks does provide policy guidance to Councils, Commissions, and States to conduct an initial assessment within 2 years of completion of this NPOA (if such assessment is not already done) to determine if the fisheries under their jurisdiction are sustainable so that NMFS may incorporate that information into the biennial report to COFI in 2003. If shark conservation and management measures are found to be necessary, the final NPOA provides further policy guidance to responsible management entities to develop fishery-specific measures within 2 years, with reporting to NMFS by September 2004 so that that information may be incorporated into the biennial report to COFI in 2005. For any fisheries that are under the authority of the Magnuson-Stevens Act
