

acquired and donated). The Budget Narrative contains the justification for a grant request over \$1,000,000, eligibility information about partner matching funds/work, and detailed cost information (by the same cost categories listed above) for grant and partner funds for each tract in the proposal. A sample Budget Table and Budget Narrative are available on the web site. If you have contributions made in the early phases of a multi-phase project and sufficient NAWCA proposals cannot be submitted before the match is more than 2 years old, you may request approval to use the match in the future by submitting a one-page Matching Contributions Plan (Match Plan) with a proposal. A Match Plan is optional, but if submitted must include match that is eligible at the time the proposal is submitted, be submitted with a proposal, may be approved only (in writing) if the proposal with which it is submitted is funded, and should show use of the match over a period no greater than 5 years.

Technical Assessment Questions. The Council uses seven Technical Assessment Questions to evaluate and select proposals. Additional selection factors, include site visit results and available funding. The questions, subparts, and point values follow. Questions 1 and 2 include priority lists of species, so you need to refer to the web site or the Council Coordinator's office to complete a proposal. Answer the questions for the completed proposal and all tracts in the proposal (grant and match).

1. How does the proposal contribute to the conservation of waterfowl habitat (high-priority species, other priority species, other waterfowl)? 15 points

2. How does the proposal contribute to the conservation of other wetland-dependent or wetland-associated migratory birds (NAWCA priority species, other wetland-dependent birds)? 15 points

3. How does the proposal benefit the North American Waterfowl Management Plan and contribute to sites that have been recognized for wetland values (Joint Ventures, Waterfowl Habitat Areas of Concern, specially recognized areas)? 15 points

4. How does the proposal relate to the National status and trends of wetlands types (acres of decreasing, stable, and increasing wetlands types; acres of uplands)? 10 points

5. How does the proposal contribute to long-term conservation of wetlands and associated habitats (acres accruing benefits in perpetuity, for 26–99 years, for 10–25 years, and for less than 10 years)? 15 points

6. How does the proposal contribute to the conservation of habitat for Federally listed, proposed and candidate endangered species, State-listed species, and other wetland-dependent fish and wildlife (Federal species, State species, other wetland-dependent fish and wildlife)? 10 points

7. How does the proposal satisfy the partnership purpose of the North American Wetlands Conservation Act (ratio of the non-Federal match to the grant request, non-Federal partners who contribute 10 percent of the grant request, partner categories, important partnership aspects)? 20 points

Funding Commitment Letters. Send signed commitment letters from all match partners, including the grant recipient and private landowners (if providing funds or land as match), with the proposal. No letters will be accepted before the proposal is received, and the only letters that will be accepted after the proposal is received are originals of signed copies that were sent with the proposal. The proposal will be returned if the 1:1 match is not documented by partner letters. Letters must document the exact contribution level identified in the proposal and whether the contribution is in cash, goods, services, or land; the partner's responsibility in the proposal's implementation, including land donations; how the partner was involved in proposal planning; and that the partner is fully aware of how the contribution will be spent.

Location Information. State a central point location for the proposal in terms of latitude and longitude and provide 8.5 by 11-inch color (preferred) maps that give the following information: (1) Location of the tracts within State(s) and counties where grant and match funds will be spent and location of land matches; (2) Location of acquisition priority areas if specific tracts cannot be given; (3) Location of major water control structures and other restoration/enhancement features; (4) Location of natural features, such as rivers or lakes, to show how the proposal fits into the natural landscape; and if applicable, (5) Show where the proposal is in relation to a larger wetlands conservation project. The proposal title should be on each map.

Standard Form 424 "Application for Federal Assistance" and Assurances Forms B "Non-construction" and D "Construction." All applicants, except the U.S. Fish and Wildlife Service, must send an SF 424 and the B, D, or both Assurances forms with the proposal. All applicants must comply with the laws listed on the Assurances forms. The forms are available via the Internet at

<http://www.gsa.gov/forms/> or from the Council Coordinator.

Exhibits and Examples. Examples of various sections of a proposal, lists of eligible and ineligible activities and costs, general process information about the NAWCA program, and people and organizations who may be contacted for assistance are available via the web site or from the Council Coordinator and should be consulted at some time in the proposal development process.

Blank Proposal Forms. The following forms are available from the web site for you to download and use to develop a proposal: A blank proposal form developed using Microsoft Word, a blank proposal form using Word Perfect, and a blank Budget Table using Microsoft Excel.
