Ruth Johnson or Tammy Adams, 301/713-2289.

**SUPPLEMENTARY INFORMATION:** On September 13, 2000, notice was published in the Federal Register (65 FR 55224) that an amendment of Permit No. 779-1339, issued July 8, 1997 (62 FR 38069), had been granted to the above-named organization. The requested amendment was been granted under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.) and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216) but did not include an increase in takes for endangered species. This amendment is granted under the authority of the Endangered Species Act of 1973, as amended (16 U.S.C. 1361 et seq.) and the regulations governing endangered and threatened species (50 CFR parts 222-227).

Permit 779-1339 authorized the Holder to: (1) harass cetaceans for the purpose of estimating abundance, collecting behavioral data, photography and biopsy sampling, and (2) collect and import biopsy tissue samples taken with a projectile dart from cetaceans. This amendment increased the number of humpback whale biopsy samples that could be taken annually.

Issuance of this amendment, as required by the ESA, was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered species which is the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

### Office of the Secretary

#### Defense Science Board

**ACTION:** Notice of Advisory Committee meetings.

**SUMMARY:** The Defense Science Board (DSB) Task Force Precision Targeting will meet in closed session March 29-30, 2001; April 19-20, 2001; May 10-11, 2001; June 14-15, 2001; and July 26-27, 2001, at SAIC, 4001 N. Fairfax Drive, Arlington, VA 22201. The Task Force will examine the full range of the precision weapons targeting in tactical military operations, from target execution, location, and identification through mission execution and damage assessment. Target types will include fixed installations and both transportable and mobile military force elements.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. The Task Force will review: All planned precision weapons programs and procurements to determine the degree to which these weapons are compatible with targeting requirements for different target classes; the degree to which existing and planned reconnaissance and surveillance assets are used to effectively develop target sets, real time targeting data and perform battle damage assessment under varied degrees of cover, concealment and deception; our ability to identify and precisely locate targets while minimizing false alarms using automatic target recognition techniques and

precision location technologies; and our ability to attack moving targets.

In accordance with section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. II), it has been determined that these Defense Science Board meetings, concern matters listed in 5 U.S.C. 552b(c) (1), and that accordingly these meetings will be closed to the public.

**ACTION:** Notice of Advisory Committee meetings.

**SUMMARY:** The Defense Science Board (DSB) Task Force on Managed Information Dissemination Follow-On Initiative will meet in closed session on February 22-23, 2001, at SAIC, 4001 N. Fairfax Drive, Arlington, VA. The Task Force will review the need and feasibility of a coordinated information dissemination capability within the U.S. Government encompassing tactical, operational, and strategic information. Specifically, they will investigate: detailed and actionable recommendations with respect to enabling "channels" and establishing appropriate "brand identity"; DoD's role in a U.S. strategic information dissemination capability; policy, legal, and economic issues hindering U.S. capabilities; and identify new and emerging technologies capable of enhancing U.S. capabilities.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Under Secretary of Defense for Acquisition, Technology & Logistics on scientific and technical matters as they affect the perceived needs of the Department of Defense. At these meetings, the Defense Science Board Task Force will review and evaluate the Department's ability to provide information.

In accordance with Section 10(d) of the Federal Advisory Committee Act, Public Law 92-463, as amended (5 U.S.C. App. II), it has been determined that this Defense Science Board meeting, concerns matters listed in 5 U.S.C. 552b(c) (1), and that accordingly
