SUPPLEMENTARY INFORMATION:

Medical Travel Refund Request (CM-957)

I. Background

The Office of Workers' Compensation Programs (OWCP) administers the Federal Black Lung Benefits Act (FBLBA). When a coal miner files an application for black lung benefits under the Act, the miner is scheduled for medical determination testing. The Black Lung Trust Fund is required to pay for this determination testing and associated travel costs. The CM-957 is used by the miner to record travel expenses incurred while traveling to and from the testing facility.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The Department of Labor seeks the extension of approval for this information collection in order to identify and reimburse miners for out-of-pocket medical travel expenses associated with black lung related medical testing.

Employment Information Form (WH-3 and WH-3(Spanish))

I. Background

Section 11(a) of the Fair Labor Standards Act, 29 USC 201 et. seq., provides that the Secretary of Labor may investigate and gather data regarding the wages, hours, and other conditions and practices of employment in any industry subject to the Act. Similar provisions are also contained in the Public Contracts Act, The Service Contracts Act, the Davis-Bacon Act, the Consumer Credit Protection Act, the Migrant and Seasonal Agricultural Workers' Protection Act, and the Family and Medical Leave Act, all of which are enforced by the Wage and Hour Division of the U.S. Department of Labor. The Form WH-3 is an optional form used by complainants and others to provide information about alleged violations of the labor standards provisions of the Acts cited above. The form is provided in both English and Spanish versions.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

Records Schedules; Availability and Request for Comments

AGENCY: National Archives and Records Administration (NARA).

ACTION: Notice of availability of proposed records schedules; request for comments.

SUMMARY: The National Archives and Records Administration (NARA) publishes notice at least once monthly of certain Federal agency requests for records disposition authority (records schedules). Once approved by NARA, records schedules provide mandatory instructions on what happens to records when no longer needed for current Government business. They authorize the preservation of records of continuing value in the National Archives of the United States and the destruction, after a specified period, of records lacking administrative, legal, research, or other value. Notice is published for records schedules in which agencies propose to destroy records not previously authorized for disposal or reduce the retention period of records already authorized for disposal. NARA invites public

comments on such records schedules, as required by 44 U.S.C. 3303a(a).

DATES: Requests for copies must be received in writing on or before April 12, 2001. Once the appraisal of the records is completed, NARA will send a copy of the schedule. NARA staff usually prepare appraisal memorandums that contain additional information concerning the records covered by a proposed schedule. These, too, may be requested and will be provided once the appraisal is completed. Requesters will be given 30 days to submit comments.

ADDRESSES: To request a copy of any records schedule identified in this notice, write to the Life Cycle Management Division (NWML), National Archives and Records Administration (NARA), 8601 Adelphi Road, College Park, MD 20740-6001. Requests also may be transmitted by FAX to 301-713-6852 or by e-mail to records.mgt@arch2.nara.gov. Requesters must cite the control number, which appears in parentheses after the name of the agency which submitted the schedule, and must provide a mailing address. Those who desire appraisal reports should so indicate in their request.

FOR FURTHER INFORMATION CONTACT:

Marie Allen, Director, Life Cycle Management Division (NWML), National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. Telephone: (301) 713-7110. E-mail: records.mgt@arch2.nara.gov.

SUPPLEMENTARY INFORMATION: Each year Federal agencies create billions of records on paper, film, magnetic tape, and other media. To control this accumulation, agency records managers prepare schedules proposing retention periods for records and submit these schedules for NARA's approval, using the Standard Form (SF) 115, Request for Records Disposition Authority. These schedules provide for the timely transfer into the National Archives of historically valuable records and authorize the disposal of all other records after the agency no longer needs them to conduct its business. Some schedules are comprehensive and cover all the records of an agency or one of its major subdivisions. Most schedules, however, cover records of only one office or program or a few series of records. Many of these update previously approved schedules, and some include records proposed as permanent.

No Federal records are authorized for destruction without the approval of the

Archivist of the United States. This approval is granted only after a thorough consideration of their administrative use by the agency of origin, the rights of the Government and of private persons directly affected by the Government's activities, and whether or not they have historical or other value.

Besides identifying the Federal agencies and any subdivisions requesting disposition authority, this public notice lists the organizational unit(s) accumulating the records or indicates agency-wide applicability in the case of schedules that cover records that may be accumulated throughout an agency. This notice provides the control number assigned to each schedule, the total number of schedule items, and the number of temporary items (the records proposed for destruction). It also includes a brief description of the temporary records. The records schedule itself contains a full description of the records at the file unit level as well as their disposition. If NARA staff has prepared an appraisal memorandum for the schedule, it too includes information about the records. Further information about the disposition process is available on request.

Schedules Pending

1. Department of the Army, Agency-wide (N1-AU-00-30, 3 items, 3 temporary items). Records relating to external exposure of individuals to ionizing radiation. Included are dosimeter evaluations, logs and readings, automated dosimetry reports, records of dose to an embryo/fetus, occupational exposure histories, and electronic copies of documents created using electronic mail and word processing. This schedule also increases the retention period of recordkeeping copies of files accumulated in offices other than the Army Ionizing Radiation Dosimetry Center and proposes minor changes in the disposition instructions for files held by the Center. Files held by the Center have a 75 year retention period.

2. Department of the Army, Agency-wide (N1-AU-00-37, 3 items, 3 temporary items). Records that are maintained by radiation safety officers relating to internal exposure of individuals to radioactive materials and to routine radiation safety surveys. Included are dosimeter badge controls, biological specimen analyses, reports relating to the functioning of facilities and equipment, and electronic copies of documents created using electronic mail and word processing. A 75 year retention period was previously
