

DEPARTMENT OF ENERGY**Federal Energy Regulatory
Commission****Sunshine Act Meeting; Notice**

January 3, 2001.

The following notice of meeting is published pursuant to section 3(A) of the Government in the Sunshine Act (Pub. L. No. 94-409), 5 U.S.C. 552B:

AGENCY HOLDING MEETING: Federal Energy Regulatory Commission.

DATE AND TIME: January 10, 2001, 10:00 a.m.

PLACE: Room 2C, 888 First Street, NE., Washington, DC 20426.

STATUS: Open.

MATTERS TO BE CONSIDERED: Agenda.

Note—Items Listed on the Agenda may be deleted without further notice.

CONTACT PERSON FOR MORE INFORMATION:

David P. Boergers, Secretary, telephone (202) 208-0400 for a recording listing items stricken from or added to the meeting, call (202) 208-1627.

This is a list of matters to be considered by the commission. It does not include a listing of all papers relevant to the items on the agenda; however, all public documents may be examined in the reference and information center.

757th Meeting—January 10, 2001; Regular Meeting (10:00 a.m.)**Consent Agenda—Markets, Tariffs and Rates—Electric**

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6931-5]

National Ambient Air Quality Standards for Sulfur Oxides (Sulfur Dioxide); Availability of Information

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA is announcing today the following actions: The availability of new information on 5-minute average sulfur dioxide (SO₂) concentrations in the ambient air; The status of EPA's ongoing activities to characterize and address 5-minute peak SO₂ levels that may pose risk to sensitive individuals with asthma, including plans to consider taking final action on the proposed intervention level program (ILP) for the reduction of SO₂ emissions published on January 2, 1997 and to respond to the remand of the final decision on the national ambient air quality standards (NAAQS) for SO₂ published on May 22, 1996; The solicitation of comments on the new air quality information.

DATES: Comments should be submitted on or before March 12, 2001.

ADDRESSES: Comments should be submitted to Susan Lyon Stone, U.S. Environmental Protection Agency (MD-15), Research Triangle Park, NC 27711; email stone.susan@epa.gov.

FOR FURTHER INFORMATION CONTACT:

Susan Lyon Stone at the same address; e-mail stone.susan@epa.gov; telephone (919) 541-1146.

SUPPLEMENTARY INFORMATION: On May 5, 1998, EPA announced its plans for responding to a remand of its final decision not to revise the SO₂ NAAQS (61 FR 25566, May 22, 1996) and for final action on the proposed ILP (62 FR 210, January 2, 1997); identified interim actions that we planned to take to address 5-minute peak SO₂ levels that may pose risk to sensitive individuals; and solicited new information and analyses on 5-minute peak SO₂ levels (63 FR 24782). The sensitive population for the effects of 5-minute peaks of SO₂ consists of children, adolescents and adults with mild or moderate asthma who are physically active outdoors. As discussed in this 1998 notice, the primary issue in our SO₂ NAAQS decision was whether a new 5-minute NAAQS was appropriate to protect sensitive individuals with asthma from the risk posed by exposure to 5-minute SO₂ levels of 0.6 ppm or above. Given the available health effects information; information as to the localized, infrequent, and site-specific nature of the risk involved; and the advice of the Clean Air Scientific Advisory Committee (CASAC), the Administrator concluded that short-term (*i.e.*, 5-minute) peak concentrations of SO₂ do not constitute a public health problem for which the establishment of a NAAQS would be appropriate.

Consistent with our final SO₂ NAAQS decision, and to supplement the protection provided by the existing SO₂
