

and to place definitions of dimensions of vessels, procedures for calculating tonnage and for documentation in general, and instructions on the reverse page. The number of entries on the new form diminished, thus lightening the burden of paperwork on the public.

The MSC uploaded the CG-5397 in its Web site, with a link to the page with forms from the Web site of the NVDC, to provide owners and builders of vessels, and private documentation services, with access to software for calculating tonnage and with the ability to download the form locally on a personal computer.

Access to Form

The new CG-5397 is available on the Web site of the MSC at www.uscg.mil/hq/msc and on the link to the page with forms from the NVDC at www.uscg.mil/hq/g-m/vdoc/nvdc.htm.

Superseded CG-5397 Forms

To avoid unnecessary burden to the public, the NVDC will continue to accept older versions of CG-5397 for documentation.
