

for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: For a copy of the ICR, call Sandy Farmer at EPA, (202) 260-2740, or download off the Internet at <http://www.epa.gov/icr/icr.htm> and refer to EPA ICR No. 1812.02. For technical questions about the ICR contact Kenneth Harmon on (202) 564-7049.

SUPPLEMENTARY INFORMATION:

Title: Annual Public Water Systems Compliance Report, EPA ICR number 1812.02, OMB Control Number 2020-0020, expiring April 30, 2001. This is a request for extension of a currently approved collection.

Abstract: Section 1414 (c)(3)(A) of the Safe Drinking Water Act requires that each state that has primary enforcement authority under the Act shall prepare, make readily available to the public, and submit to the Administrator of EPA, an annual report of violations of national primary drinking water regulations in the state. The states' reports are to include violations of maximum contaminant levels, treatment requirements, variances and exemptions, and monitoring requirements determined to be significant by the Administrator after consultation with the states. Section 1414(c)(3)(B) of the Safe Drinking Water Act requires EPA to prepare and make available to the public an annual report that summarizes and evaluates the reports submitted by the states pursuant to section 1414(c)(3)(A). EPA's annual national report must also provide specified information about implementation of the public water system supervision system on Indian reservations and make recommendations concerning the resources necessary to improve compliance with the Safe Drinking Water Act. The States have already prepared and published three annual reports. EPA has prepared three national reports and published two. The third annual national report has been prepared and its publication is pending.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. The **Federal Register** notice required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on February 5, 2001 (66 FR 8960); no comments were received.

Burden Statement: The annual public reporting and recordkeeping burden for

this collection of information is estimated to average 80 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States, Tribes, and territories that have primary enforcement authority and meet the definition of "state" under the Safe Drinking Water Act.

Estimated Number of Respondents: 54.

Frequency of Response: Annually.

Estimated Total Annual Hour Burden: 4,300 hours.

Estimated Total Annualized Capital, Operating/Maintenance Cost Burden: 0.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden, including through the use of automated collection techniques to the following addresses. Please refer to EPA ICR No. 1812.02 and OMB Control No. 2020-0020 in any correspondence.

Dated: April 16, 2001.

Oscar Morales,

Director, Collection Strategies Division.

Agency Information Collection Activities: Proposed Collection; Comment Request; General Conformity of Federal Actions to State Implementation Plans

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this notice announces that

EPA is planning to submit the following proposed and continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): General Conformity of Federal Actions to State Implementation Plans, ICR number 1637.05, and OMB Control Number 2060-0279, expiration date: September 30, 2001. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

DATES: Comments must be submitted on or before June 26, 2001.

ADDRESSES: A copy of the supporting statement may be obtained from the Ozone Policy and Strategies Group, Air Quality Strategies and Standards Division, Office of Air Quality Planning and Standards, MD-15, Research Triangle Park NC 27711 or is available electronically at <http://www.epa.gov/ttn/oarpg> under "Search OAR P&G," type in General Conformity.

Comments must be mailed to Annie Nikbakht, Ozone Policy and Strategies Group, Air Quality Strategies and Standards Division, MD-15, Environmental Protection Agency, Research Triangle Park, NC 27711.

FOR FURTHER INFORMATION CONTACT: Annie Nikbakht, telephone: (919) 541-5246, Facsimile: (919) 541-0824; E-Mail: nikbakht.annie@epa.gov

SUPPLEMENTARY INFORMATION:

Affected entities: Entities potentially affected by this action are those which take Federal actions, or are subject to Federal actions, and emit pollutants above de minimis levels.

Title: General Conformity of Federal Actions to State Implementation Plans, EPA ICR Number 1637.05 and OMB Control Number 2060-0279, expiration date: September 30, 2001.

Abstract: Before any agency, department, or instrumentality of the Federal government engages in, supports in any way, provides financial assistance for, licenses, permits, approves any activity, that agency has the affirmative responsibility to ensure that such action conforms to the State implementation plan (SIP) for the attainment and maintenance of the national ambient air quality standards (NAAQS). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15. Section 176(c) of the Clean Air Act (42 U.S.C. 7401 *et seq.*) requires that all Federal actions

conform with the SIPs to attain and maintain the NAAQS. The EPA's implementing regulations require Federal entities to make a conformity determination for all actions which will impact areas designated as nonattainment or maintenance for the NAAQS and which will result in total direct and indirect emissions in excess of de minimis levels. The Federal entities must collect information on the SIP requirements and the pollution sources to make the conformity determination. Depending on the type of action, the Federal entities either collect the information themselves, hire consultants to collect the information or require applicants/sponsors of the Federal action to provide the information.

The type and quantity of information required will depend on the circumstances surrounding the action. First, the entity must make an applicability determination. If the net total direct and indirect emissions do not exceed de minimis levels established in the regulations or if the action meets certain criteria for an exemption, a conformity determination is not required. Actions requiring conformity determinations vary from straightforward, requiring minimal information, to complex, requiring significant amounts of information. The Federal entity must determine the type and quantity of information on a case-by-case basis. State and local air pollution control agencies are usually requested to provide information to the Federal entities making a conformity determination and are provided opportunities to comment on the proposed determinations. The public is also provided an opportunity to comment on the proposed determinations.

The EPA would like to solicit comments to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of

information technology, e.g., permitting electronic submission of responses.

Burden Statement: The estimated total annual projected burden and cost for respondents of Federal agencies are 175,000 hours and \$8,027,000. The estimated total annual projected burden and cost for respondents providing information to the Federal agencies are 5,040 hours and \$223,000. The estimated total annual projected burden and cost for the State and local agencies are 13,600 hours and \$377,279. The estimated total annual projected burden and cost for EPA is 26,200 hours and \$720,934. The total annual burden is estimated to be 219,840 hours and \$9,348,213. For the 3 years covered by this ICR, the total burden is estimated to be 659,520 hours and \$28,044,639. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: April 2, 2001.

Henry C. Thomas, Jr.,

Acting Director, Office of Air Quality Planning and Standards.
