GENERAL SERVICES ADMINISTRATION

Notice of Intent To Prepare an Environmental Impact Statement (EIS) for the Future Master Plan Development for the Centers for Disease Control (CDC) in Chamblee, GA

Pursuant to the requirements of the National Environmental Policy Act (NEPA) of 1969, and the President's Council on Environmental Quality Regulations (40 CFR parts 1500-1508), as implemented by General Services Administration (GSA) Order PBS P 1095.4D, GSA announces its Notice of Intent (NOI) to prepare an EIS for the proposed development and future build out for the CDC in Chamblee, Georgia. The proposed action includes the expansion of facilities and will include additional buildings, parking structures, and infrastructure on Government-owned property located in Chamblee located south of Tucker Road between Peachtree Dekalb Airport and Buford Highway. The EIS will examine the impacts of this proposed development on the natural and human environment to include impacts to wetlands, floodplains, traffic, and other potential impacts identified by the community through the scoping process.

The EIS will address the potential impacts of two alternatives: the Proposed Action (Development Alternative), and No-Action Alternative (meet facility requirements without full development on site). GSA will solicit community input throughout this process, and will incorporate community comments into the decision process. As part of the Public Scoping process, GSA solicits comments in writing at the following address: Mr. Phil Youngberg, Environmental Manager (4PT), General Services Administration (GSA), 77 Forsyth Street, Suite 450, Atlanta, GA 30303 or Fax: Mr. Phil Youngberg at 404-562-0790. Comments should be submitted in writing no later than June 1st, 2001.

Dated: April 18, 2001.

Phil Youngberg,

Environmental Manager (4PT), General Services Administration.

Office of the Secretary

Findings of Scientific Misconduct

AGENCY: Office of the Secretary, HHS.

ACTION: Notice.

SUMMARY: Notice is hereby given that the Office of Research Integrity (ORI) and the Assistant Secretary for Health have taken final action in the following case:

Malabika Sarker, M.B.B.S., M.P.H., University of Alabama at Birmingham: Based on the report of an investigation conducted by the University of Alabama at Birmingham and additional analysis conducted by ORI in its oversight review, the U.S. Public Health Service (PHS) finds that Dr. Sarker, former doctoral fellow, Department of Epidemiology, School of Public Health, University of Alabama at Birmingham, engaged in scientific misconduct by falsifying questionnaire data for risk factors for sexually transmitted diseases (STDs) in Bangladesh for her dissertation. The research was supported by the Fogerty International Center, National Institutes of Health (NIH), grant D43 TW01035, "UAB AIDS/HIV International Training & Research."

The purpose of the research was to determine from questionnaires the lifestyle and personal history factors of subjects and correlate them to infection rates for STDs from use of laboratory tests. Dr. Sarker admitted that she falsified the coding of the questionnaire data relating to the occupations of the subjects and of their sexual partners to present statistically significant data regarding the risk factors for STDs.

Dr. Sarker has accepted the PHS finding and has entered into a Voluntary Exclusion Agreement with PHS in which she has voluntarily agreed for a period of three (3) years, beginning on April 17, 2001:

(1) To exclude herself from serving in any advisory capacity to PHS, including but not limited to service on any PHS advisory committee, board, and/or peer review committee;

(2) That any institution that submits an application for PHS support for a research project on which Dr. Sarker's participation is proposed or that uses Dr. Sarker in any capacity on PHS supported research, or that submits a report of PHS-funded research in which Dr. Sarker is involved, must concurrently submit a plan for supervision of her duties to the funding agency for approval. The supervisory plan must be designed to ensure the scientific integrity of Dr. Sarker's research contribution. The institution must also submit a copy of the supervisory plan to ORI.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call the CDC Reports Clearance Officer on (404) 639-7090.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Send comments to Anne O'Connor, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D24, Atlanta, GA 30333. Written comments should be received within 60 days of this notice.

Proposed Project

NIOSH Website for Kids and Teens—NEW—The National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC). The mission of the National Institute for Occupational Safety and Health is to promote safety and health at work for all people through research and prevention.

The goal of this project is to develop a more effective means of communicating NIOSH occupational safety and health (OSH) information to youth via the NIOSH Website for Kids and Teens. NIOSH research indicates that approximately 80% of youths are employed at some point before they leave high school. Research also indicates that despite being prevented by child labor laws from engaging in the most dangerous occupations, teens have a higher rate of injury per hour worked
