

i. *Deadline for filing comments and or motions:* June 11, 2001.

All documents (original and eight copies) should be filed with: David P. Boergers, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426. Comments, protests, and motions to intervene may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

Please include the noted project numbers on any comments or motions filed.

j. *Description of Proposal:* Nantahala Power and Light Company (Nantahala), the original licensee of these projects, has merged into Duke Energy Corporation (Duke) and no longer exists. Duke now seeks after-the-fact approval of the transfer of the licenses from Nantahala to Duke, as well as a name change to Duke Power, a division of Duke Energy Corporation, Nantahala Area. (In response to a notice filed by Duke on May 12, 2000, the Commission inadvertently issued, on June 28, 2000, an order changing the name of the licensee to Nantahala Power and Light, a division of Duke Energy Corporation. See 91 FERC ¶ 62,235, which of course lacked the prerequisite step of Commission approval for transfer of the project licenses to Duke.)

The transfer application was filed within five years of the expiration of the licenses all of these projects. In Hydroelectric Relicensing Regulations Under the Federal Power Act (54 Fed. Reg. 23,756; FERC Stats. and Regs., Regs. Preambles 1986–1990 30,854 at p. 31,437), the Commission declined to forbid all license transfers during the last five years of an existing license, and instead indicated that it would scrutinize all such transfer requests to determine if the transfer's primary purpose was to give the transferee an advantage in relicensing (id. at p. 31438 n. 318).

The transfer application also contains a separate request for the substitution of Duke Power, a division of Duke Energy Corporation, Nantahala Area for Nantahala Power and Light, a division of Duke Energy Corporation as the applicant in the pending relicensing application, filed on September 27, 1999, in Project No. 2694–002.

May 4, 2001.

This constitutes notice, in accordance with 18 CFR 385.2201(h), of the receipt

of exempt and prohibited off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive an exempt or a prohibited off-the-record communication relevant to the merits of a contested on-the-record proceeding, to deliver a copy of the communication, if written, or a summary of the substance of any oral communication, to the Secretary.

Prohibited communications will be included in a public, non-decisional file associated with, but not part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such requests only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication should serve the document on all parties listed on the official service list for the applicable proceeding in accordance with Rule 2010, 18 CFR 385.2010.
